

We know many families have two working adults and we don't expect anyone to be a superhero and quit a day job just to be able to take home a puppy. **Every puppy family has different needs, and this information form helps us identify who needs what information and what homes might make the best t.** If you're a veterinarian dog owner, we don't want to waste your time regaling things you already know; by the same token, if this is your first puppy, we want to make sure you leave prepared for what life with a puppy may bring.

Are all adults in the home in agreement to purchase a puppy? _____

Does anyone in the home have allergies to dogs? _____

Are you willing to crate train your puppy? _____

Will your puppy be an inside or outside dog? _____

How many hours will the puppy left alone (without a potty break) each day?

Is this puppy being purchased as a surprise or gift for anyone? _____

Have you or any one in the puppy's future household ever been arrested, charged or convicted for animal cruelty or animal hoarding? _____

I may check records for each adult in your household.

Do you agree to this? Y N

Do you agree to give us follow-up reports and photos from time to time? _____

Do you agree to contact us in the case that you need to re-home this puppy for whatever reason? Yes Yes (There is no NO option)

GOING HOME: We cannot hold puppies for extended times; it is critical for their social development that the litter departs within a reasonable timeframe. If you have a big vacation planned or have events that would conflict with a young puppy, please know puppies cannot be boarded in a kennel until they have received their full immunizations and their rabies vaccination which cannot be done until 3 months of age.

CONTRACT: **We have a contract** and will not place a puppy without a signed contract. We believe it's the professional thing to do to memorialize our obligations to each other on paper so there are no questions later, and for that reason it's a bit lengthy. If you have questions about specific terms, you need to contact us prior to picking up your puppy.

SPAY/NEUTER: We request that spay/neuter at or before 24 months. If you are a breeder you should notify us prior to purchase. I am a responsible breeder and we have a take-back provision in our contract. Any puppy from our home always has a home here and will never experience the fear and burden of life at a shelter. Taking back an unaltered dog into our home poses significant risk to our own dogs due to canine STDs and the possibility an unaltered dog could be pregnant. Sadly, many well-intentioned folks don't remember to spay before the first heat cycle, and suddenly their barely adolescent dog is pregnant by multiple studs of unknown heritage. Spay surgery while pregnant is exceedingly risky, and several canine STDs such as brucellosis can be transferred to humans, which poses an unacceptable risk to our family. Because we take cradle-to-grave "original home" responsibility for the puppies we created, puppies must be de-sexed unless there is a written Breeding agreement in place.

REGISTRATION PAPERS: Our excellent family companions do not come with registration papers to any registry. We do supply an extended Pedigree. These working dogs will often not qualify for registration due to the lack of reciprocity in registering organizations.

I've read this and I've:

Got it! 10-4 _____ Got some questions _____

Please provide any other relevant information you feel would assist us in placing a puppy in your home:

Do you have any other questions for us you'd like us to note?
