

GUERRILLA
—VFX—

GUERRILLA VFX

Guerrilla tactics. Hollywood results.

Who we are

At Guerrilla VFX, we're the special ops of post-production. Stealthy, strategic, and maybe a little too caffeinated. Our mission? Deliver jaw-dropping visual effects on time, on budget, and without any of those 'Hollywood drama' plot twists. We'll adapt, improvise, and hustle through every obstacle so your shots make it to screen looking like a million bucks, even if you didn't have a million bucks.

What we do

- *UK-Run* Production Team
- Secure execution at **VFXPICK** in India
- A percentage of client spend qualifies for *UK tax relief incentives*
- The best of both worlds: *cost efficiency* + *tax savings*

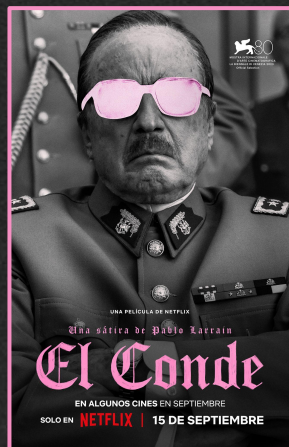

Security & Compliance

All our work is carried out at **VFXPICK STUDIO's** secure facility in India, which holds industry-recognized certifications for content security and data protection. Our workflows follow global best practices, with encrypted storage, secure data transfer protocols, and strictly controlled access to all sensitive materials. The facility is equipped with 24/7 monitored systems and adheres to studio-grade compliance standards, ensuring every asset remains confidential from concept to delivery. By combining robust infrastructure with a culture of trust and accountability, we give our clients complete peace of mind while delivering world-class visual effects.
