B a k e r		 DAVID BAKER		Four years after PHS I graduated from MCC (Optical Engineering) and went to work at Corning. Two years later I rode my bicycle across the USA. In 1982 I graduated from Clarkson (Electrical & Computer Engineering) and went to work at CCI. Six years later I was at Xerox. Final 16 years @ Xerox I enjoyed my dream job doing Patent Infringement Defense. Retired in 2015 so I could help my parents navigate their final years, be more active, travel, and explore my artistic side. My favorites are my 99 year old Mom Ida, skiing, golfing, building/fixing things, learning, and exploring the Rocky Mountains.
B e c k e r	 Andi Becker			I attended nursing school in Plattsburgh NY. Directly after graduation I moved to So. California & have resided majority of time in beautiful Santa Barbara. In California I have been able to blend traditional hospital nursing, of which many years were spent in obstetrics and specialty with newborns along with study of alternative healing practices. I have had private healing practice for many years which I love. My studies have taken me to Europe and India. I was married to my best friend for 20 years. My family is still all in Penfield area and I love to come back for visits.
B e t l e m	 Don Betlem			
B r o w n	 Jim Brown			
B u t l e r	 Reb Butler			What a long strange trip.....got a BA in Drama/Film, didn't use it for a while, bopped around Mass, Virginia, Florida, Oregon, Maine, wound up in Virginia again, met my honey, persuaded her to come up to Boston (where we remain), started working in video production which held for 10 years or so, pivoted to running a business with my best friend which somehow turned into corporate finance for 15 years, had a son who is now in Rochester, just retired a couple of years ago, and now we're prepping for a move back to Rochester to be near aforementioned son.

C a r p e n t e r	 <p>Dave Carpenter</p>		YES	<p><b>For Bio, See Maureen Palmer</b></p>
C a y n e	 <p>Jenny Cayne</p>			<p>Upon my graduation from the University of Rochester, I returned for a few years to live in Lancaster, England where I had attended Lancaster University during my Junior year. Moving back to the States, I worked as a Senior Buyer &amp; Merchandiser for a large national retailer headquartered in NYC. While living in the city, I met my French Moroccan husband Georges. With family all over the world, we travel often to Europe, Israel and Africa.</p> <p>Building our dream house inspired me to change careers and pursue working in residential real estate. Additionally, I work part-time for the Associated Press, teach and have held offices and event planned for charities. My children live in NYC where my son is an actor and my daughter is a math teacher and S.A.T. Prep tutor. I consider myself very fortunate to live nearby them. Some day, when things slow down, we plan to move permanently to our vacation home in Florida.</p>
C h e n e y	 <p>Laura Cheney</p>		YES	<p>Graduated from SUNY Cortland in the spring 1978 with a degree in Recreation Administration. Worked at a conservation school with teens after graduation. c h i n e l l i	 <p>Samuel Chinelli</p>		YES	<p>During &amp; after my senior year at PHS I worked as a TV repairman until being hired at Delco Products in 1983. I met my wife, Terri, during our apprenticeship as electricians, and married in 1995. We live in Ontario, N.Y. We have 4 children and 12 grandchildren. C h w i e c k o	 <p>Kristin Chwiecko</p>			<p>After graduating from PHS I attended and graduated from St. Lawrence University. Lived in Penfield for a short time, married Bob Landau in 1980 and moved to Westchester County where I lived for the next 40 years. I have two wonderful daughters, Melissa and Jessie, and a granddaughter Matilda. I received my MAT at Manhattanville College and taught art in Bedford and Somers, NY until I luckily retired in 2019 just before Covid struck. My husband Bob died in 2007. 10 years later I met my current partner Pete who had grown up in the Rochester area and had also graduated from St. Lawrence. We lived briefly in Idaho and currently call our permanent residence Bokeelia, Florida and spend our summers in West Bloomfield, NY. I now spend a good deal of my time competing in Dock Diving with my Chesapeake Bay Retriever Philomena and pursuing my newfound love of throwing pottery on the wheel</p>
C h w i e c k o	 <p>Nancy Chwiecko</p>			<p>After graduating from PHS, I attended and graduated from St. Lawrence University. I lived for a few years in the Catskill region and returned to Rochester to attend RIT where I received an MFA in Interior Design. After working in the field for a short while, I returned to RIT in 1988 to start a career as a tenure track professor in Interior Design where I taught until I retired in 2013. At RIT I met my husband, Rich Tannen, a professor in the School for American Crafts, who taught in the Woodworking and Furniture Design program. In 2014 we built our home in West Bloomfield, NY. Our lives outside of work always revolved around our dogs, we have had many over the years. We currently have three dogs, 2 Shetland Sheepdogs and a Border Pap (a sport mix between a Border Collie and a Papillon). We are heavily involved in the dog agility world. We train our own dogs as well as teach dog agility classes. I also have been training one of my dogs in herding - sheeps and ducks</p>

C o n n o r s	 <p>William Connors</p>			<p>After PHS, I graduated from St Lawrence U. I became a high School teacher ala Don Stewart and Gordy Shea, I wasn't as cool. Got the travel bug and was hired to be VP of the Travel Inst. in Boston, then ran two major travel industry trade groups in DC for 10 years. Married an ADK girl, moved to Boise, ID to be the CEO of the Boise Chamber of Commerce for the past 15 years. Earlier this year our two daughters, one son-in-law and we appeared on Family Feud! We love to travel, spend time with family and enjoy summers on a lake just north of Utica.</p>

D o w n i n g				<p>Sadly, I did not graduate from PHS as my family moved to Florida shortly into my junior year. I received a BA in English from U of Florida in '78, moved to Sarasota in 1979 and have lived there ever since. Fell into accounting and stayed there for 20 years until I got a teaching job after finishing a M.Ed program. That 2nd career went for 22 years; retired now. I have one terrific daughter and family living 10 minutes from my house and one outstanding stepdaughter and family who live in Winnipeg, Manitoba. I'm also very fortunate to have two grandsons and two granddaughters, ages 17, 10, 6 and 1. Lost the best husband ever in March, 2023 to an accident; been traveling in my trusty camper a lot since then.</p>

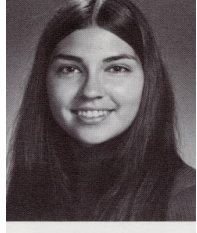

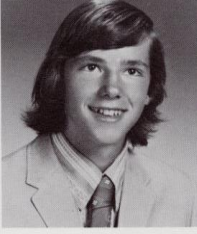

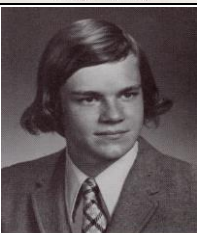

D u n n	 <small>Julie Dunn</small>		<p>After leaving PHS, I graduated from Williams College, worked in NYC and had a scholarship to Lausanne, Switzerland. I then got a Masters in Foreign Service at Georgetown, and worked in the federal government before moving up to the Boston area. I have lived in Arlington, MA for many years, and have a home in Rockport, just an hour away on Cape Ann. My two kids live in Providence, RI and Brooklyn, NY. This summer, I happily retired from the Arlington Public Schools where I worked as Director of Grants and Communications following a career in international corporate finance at BankBoston. As I begin retirement, I am loving my time kayaking, hiking, and bicycling in New England.</p>

When I am not home Penfield/Webster area, my husband, Bruce and I bought a motorhome and travel now all over the United Staes. Our country is so beautiful, so much to see and experience.  Enjoy each day, and make it a memorable adventure! Take care and smile!</p>
F i n k l e	 <small>Sharon Finkle</small>		<p>I am a proud mom of 2 wonderful children, who are now adults, have 2 amazing granddaughters, a miniature schnauzer, and have been happily married to my better half for 40 years, since 1983. After HS graduation, I went to Ball State University in Indiana and received my BD and MAE. I taught students who were deaf in Binghamton and Watertown before getting married. I've been in and out of school to obtain more certifications and degrees in a variety of states. We moved to State College, PA in '97 where I worked in the local school district as the Assistant Director of Special Education, and then the Director of Special Education. Prior to our move to State College, I worked as an elementary principal, special education supervisor, special education teacher, and school counselor in a variety of states (NY, IN, OH, and TX). I am enjoying retirement, my grands, biking, spending time at our place in the ADKs, reading, singing, and just enjoying life</p>
F o r m a n	 <small>Ellen Forman</small>		<p>Since college graduation I have lived in New Hampshire, Gananda (just down the road from Penfield), Ontario (NY), and I now reside in the village of Fairport . I was a teacher in Gananda for over 20 years (primarily 5th grade math), and wisely retired when Covid settled in and disrupted the education system. I have three grown, married children; my sons also live in the village and my daughter lives in Trumansburg. To keep things consistent, all three of my kids had babies in 2021, so I joyfully spend much of my time with our "babies," who are 2, turning 3. I am thankful for many things: living on the canal where I can bike, the fun we have as a family, and the close friendships I still have with Penfield women, some of whom I have known since second grade. Looking forward to the reunion!</p>
G a r y	 <small>Steve Gary</small>		<p>After a rewarding career in public practice and healthcare administration we are enjoying retirement in Myrtle Beach. Went on to complete a master's degree in education at Nazareth College in the mid-90s. I've been in the field of education ever since, the last 24-years at Bay Trail Middle School as a grade six history teacher.</p> <p>During the summers, I drum in the orchestra for the retro girl group, It's My Party.</p>
G o l d a m m e r	 Jim Goldammer		<p>After graduating from high school I did some traveling, including hitchhiking across the country. I decided to get serious and got a bachelors degree in Michigan. I started JG office systems acquiring such clients as IBM and Kodak. I built a beautiful house in Victor and raised two boys who are both happily married now and have two beautiful granddaughters that fulfill my days with so much laughter. With photography being my passion for the last 45 years, I have done some extensive traveling over the last couple of years to capture many beautiful images that can be seen on my Facebook page.</p>
G r e e n b e r g			<p>I never attended PHS, but went to Penfield schools from K-9th grade, so I figure you are my people. Always a nature lover, I went on to study biology, and then cultural geography. For four decades, I did research and created programs to support small farmers, artisanal cheesemakers, and immigrants in the United States and in Mexico.</p> <p>While conducting research on the Yucatan Peninsula in 1984, I met my husband, Alberto Vargas. We've collaborated on a lot of projects since then, but by far, our favorite project is our bi-cultural (Mexican-US) family, with our kids Gustavo Zach (32) and Ilana (24).</p> <p>At play, I still love gardening, cooking, hiking, and traveling.</p> <p>Laurie Greenberg</p>

After many years at CVS, I returned to school, became a teacher and taught kindergarten / first grade special ed for 22 years. I retired in 2020 and spend my time babysitting my grandchildren and do as much traveling as I can with my good friend Jim.</p>
H e e k s	  <small>Leslie Heeks</small>		<p>Soon after graduating from SUNY Geneseo, I ventured out to Yellowstone National Park and worked with National Park Service, both there and in Glacier National Park. After 11 years, my work shifted to guiding and teaching in those parks and eventually in other parks throughout the west. My late husband, Jim, was an artist, singer songwriter, long distance wilderness traveler and advocate for the natural world. We shared a great life spending weeks and sometimes months backpacking, skiing or occasionally in a canoe on a remote Arctic river. Guiding has provided me with opportunities to travel across the globe. My life has been full. Once or twice a year I'm back here visiting family and I regret not being at this reunion. Enjoy the weekend! Sadly will miss the reunion,</p>

K a r r o n	  <small>Andrew Karron</small>		<p>Hi, all. 50 years is a long time! After college I came to Washington DC to do voting rights work in the Jimmy Carter Justice Department (before the Supreme Court invalidated the Voting Rights Act), went to law school at New York University, and returned to the DC area, where I've lived ever since. After 20 years as a litigation partner at Arnold &amp; Porter, I left to join some friends to start our own boutique firm specializing in settling big, complex cases. It's been a fun ride: I met a lot of interesting people in all sorts of businesses all over the country and also got to do a lot of pro bono work. I'm now semi-retired, working for a few favorite clients and teaching constitutional law to college students at American University. They are young, enthusiastic, and idealistic, which is great. I live in Bethesda, MD with my wife (and college classmate), Janet Storella, a breast radiologist who also is trying to phase down. We're empty nesters but lucky enough to have our daughter and son living in the area, so we see them often, along with my sister Ruth (a professor of public health at Johns Hopkins) and her family. No grandkids yet. I've not been back to Rochester since my parents passed about 15 years ago and will miss the reunion. But I wish everyone all the best.</p>
K e e h n	  <small>Jim Keehn</small>		<p>I will not be able to attend the reunion. Have fun everyone!  My bio is pretty basic. I wake up every morning ever grateful for all the blessings that I've had in my life. Was married once, but it didn't last. It blessed me with two wonderful children however. Even though they'd both moved out, I still get to see them now and then.  I've worked for McDonalds, the US Forest Service, the Colorado State Forest Service, the American Red Cross, . . . Even though those jobs did not last (I seem to have a knack for getting fired), they kept a roof over my head, food in my belly, and gas in my tank. I plan to keep working for as long as employers continue to hire me.  I also had long hair when I attended Penfield HS. It's also gone! Fortunately, I've been given many different hats to wear. Even though life did not turn out exactly as I had planned, I am still very lucky to be living in Oregon (only about an hour from the coast, or a snow covered mountain, or some awesome waterfalls, or even a semi-active volcano) with my energetic 3-year old Labrador Retriever.</p>

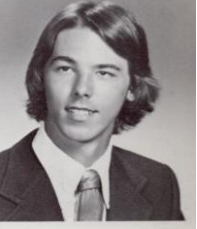

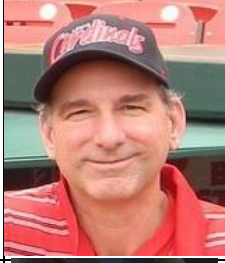

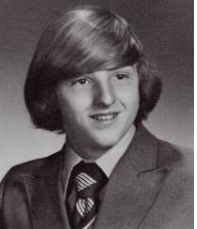

K e p p l e r				<p>After 40 years of work in accounting / finance, I retired in 2014 to move to the Chicago area, for several years with my new husband, Dave. I have a daughter and son, as well as three stepdaughters, and two grandchildren. We travel often, visiting family and friends.</p>

L a m b e r t s				<p>I thought I had pretty much peaked after being voted shyest girl in our senior class. However, since then I have gone on to achieve a number of other distinctions, including happy wife of 44 years to my husband Nicholas, clinical dietitian (now retired), cancer survivor, grandmother to my daughter's two wonderful boys, caregiver to my son with muscular dystrophy, Bible study teacher and plant nerd. It's not quite the life I planned for myself, but nevertheless, I am grateful for it and would say it's been a good one!</p>
L e e n h o u t s				<p>After graduating from Penfield High, I attended the U of R . I married, lived in Gananda, had two sons and worked for for the family real estate company Home Properties. I moved to Macedon in 2007 and have been renovating houses in the area since. I have been enjoying my 4 grandchildren who live locally and this year became a great grandmother! Being single, I have been actively playing violin/fiddle at church and with multiple local groups over the years. You can find me on Facebook where I frequently post sunset pond pictures from my Macedon yard.</p>
L e i s e r				<p>Hi all. Looking foward to seeing all my high school chums. I can't believe it's been 50 years. Still happily married for almost 49 years. I have two children 42 and 43 years old. I have 3 fabulous grandchildren 12, 7 and 6. Grandchildren are the best thing God created. I worked in the travel business for 30 years and am glad to be retired now so I can do the traveling now.</p>

L e r n e r	 <p>Kenneth Lerner</p>		<p>After Beloit College, 1979-Reactor room engineer, 3 Mile Island. 1980-Jimmy Carter's campaign manager. 1986 O Ring Inspector for the Challenger. 1989 Pilot Exxon Valdez. 1991 Kicking coach for Scott Norwood. 2008 Investment Advisor Lehman Brothers. 2009 Dish Washer, Best Western. 2010 Deep Water Horizon underwater cement mixer. 2010s-father to teenage sons, a low point in my career, I knew I had to turn things around. 2023 Boeing Window welder. 2024 Biden's debate coach. L e v e r e n z	 <p>Robin Leverenz</p>		<p>Thanks for giving me an excuse to come back to visit friends in Rochester. After grad school at THE Ohio State University and a stint at Battelle, I found my professional love -- working with academic inventors. Started in tech transfer at OSU, moved to U Michigan and my final home is now Duke. Along the way a few marriages, but most importantly a son and now a daughter-in-law and a granddaughter. Currently facing the existential crisis of when to retire. See you in Sept.</p>
L e w i s	 <p>Bob Lewis</p>		<p>Married to Leslie McDermott Lewis for 46 years with 4 grown children all w respective spouses/partners w soon to be 6 grandchildren. While I'm semi-retired...family, business, and music are my passions. My career started in radio which lead to many ventures over the years. MMELive.com, an experiential agency and production company, executed over 66,000 events for 75 fortune 1000 companies. This was my bread and butter business and I also built and sold both a catering company and have a history in developing real estate in San Antonio, Atlanta, and now the mountains in North Carolina which will include me obtaining my residential general contractor business as I also have a passion as a maker and developer. Those who really know me - 'know' that music is integral in my life and this is getting more public than not - as I've now played harmonica in venues (bars&amp;clubs) across the country by stepping up with other musicians - and I can see myself honking on a chair much like BB King in my late 80's and early 90's playing to intimate audiences. I am blessed individual - happy and loving as always.</p>

I worked as a Senior Executive Assistant for 43 years at various companies: Kodak, Bausch &amp; Lomb, Anthony J. Costello &amp; Son, and lastly at Allendale Columbia School, which I retired from in January of 2021. I have eight grandchildren, and babysit the four youngest (ages 1-3) two to three days a week. Two of my daughters live in Penfield so I attend sporting events there. Boy has the high school changed!"</p>
O ' H a r a	 <p>Adrian O'Hara</p>		<p>After PHS I received my BA in geography and later MBA from Clark University in Worcester, MA. I made Worcester my home, raised my son and daughter, and worked as a Professional Land Surveyor. After 24 years in land surveying, I left to work in administration for the graduate programs at Assumption University, also in Worcester. I met my now husband and moved to South Bend, IN where he worked at Notre Dame. Shortly after, he took a position at Yale and we moved to New Haven, CT, which has been home for the past 12 years. I was glad to be back in New England where the sun shines all winter long! After many years working in communications, I'm now happily retired. When not working in the yard I can be found on the I-95 corridor driving to visit my almost 2-yr old granddaughter</p>

P a l m e r	 <p>Maureen Palmer</p>		<p><b>YES</b></p> <p>50 years, hard to believe it's been that long. Looking forward to September to celebrate this milestone with many of you. We've raised 4 amazing sons, welcomed 3 beautiful daughters to the mix and now have 7 incredible grandchildren. Our hearts are full and life has been good to us! I retired a few years ago as a Teaching Assistant from the Fairport Schools. We have had wonderful opportunities to travel some while Dave is still plugging along with Carpenter Plumbing. As one of my favorite songs says .."See you in September!!"</p>
P a s c u c c i	 <p>Mike Pascard</p>		<p>Mr Sansone, not Steve but his short, ugly brother Phil asked me for a bio and photo. So to keep him from annoying me further I have compiled both and passing along.</p> <p>Looking forward to seeing you all soon! Scuch</p> <p>50 years in a nutshell...</p> <p>After some college, I worked at custom photo labs in Rochester and San Francisco. In 1979 I met my love, Amy and we married in 1981. While in SF, we had our Son, John in 1983. That same year, we moved back to Penfield. In 1990, I began an amazing career at Eastman Kodak Co. In 2012 I became a consultant at Ortho Clinical Diagnostics, until retiring in 2020. Today, Amy and I reside in Pittsford, where we spend quality time spoiling our beautiful grand girls, Cora &amp; Dalia (pictured w/"Santa").</p>
P h i l b r i c k	 <p>Liz Philbrick</p>		<p>Graduated SUNY Geneseo in 1978. Happily married for 45 years to my soul mate, Tim. I have done a lot of volunteering over the years and helped start a day program for adults with disabilities where I served as a board member. Tim and I enjoy following the Dallas Mavericks and attending concerts. Our generation had the best music! I spend my time reading, gardening, and being a caregiver for our youngest son, who is autistic.</p>

I am as funny and as handsome as ever and I sell 8 x 10 glossies of my present picture for \$15. \$25 if I sign it.</p> <p>Currently a couple of classmates have Restraining Orders out on me, so bottom line is....I haven't changed a bit! Jay, who I met in college, and I left the city for Scarsdale for 22 years to raise our two sons. Now, we are back in NYC with both boys married &amp; living in NYC, and we have 3 soon to be 4 grandkids. When I stopped working, I developed an expertise in advocacy on behalf of non-profits. Today, I still travel to Washington, Albany and locally to meet with elected officials &amp; policy makers to effectuate change. In any spare time, in addition to being with the grandkids, I love skiing, biking, golfing, attending sporting events and of course, discussing politics. We spend time in the Hamptons and Florida as well.</p>

W i l d e r	 <p>Sue Wilder</p>		<p>I graduated from Syracuse University with a BFA in Fashion Design in 1978 and worked in NYC in the lace and intimate apparel industry for over 15 years which provided lots of cocktail conversation over 42 years with my husband, John! I retired in the mid 90's and finished raising our 2 handsome sons who now live in Boston and are both in the music industry. We first lived in New York's West Village until 1985 then moved to Darien, Connecticut. We moved to Boca Raton, FLA for a short 2-year stint when John ran a record label with the Estefan's in Miami. Back to CT in 2001, we re-built our second house while John's artist development career continued to prosper with several well-known artists yielding lots of travel both nationally and internationally. Over the years, I've done tons of local volunteer work with schools, church, and the local Scouting organization (both sons are Eagle Scouts!) I recently completed a 2-year role serving as President of our local Garden Club. My other hobbies include biking, gardening (raising orchids), family genealogy and TRAVEL!! We'll look forward to seeing everyone at the reunion and will be especially happy to hug those that I have kept in close touch with over recent years via Zoom!</p>

After attending the University of Colorado and SUNY Albany I moved to the island where my aunt and uncle ran a small hotel. I met my husband, Ted, a pilot and aircraft mechanic, at the airport when we both worked for a small aviation company. Together we began and ran our own air charter business, Direct Flight, for over 20 years. In 2005 I received a certificate in Museum Studies from Tufts. I then worked at the Polly Hill Arboretum for 12 years as the membership and adult education coordinator. Recently we have been spending more time in Tubac, Arizona in a home that has been in Ted's family for years. No kids, lots of cats, yeah I'm one of those!</p>

I've been in watery Houston for 40 years working as a space scientist. My wife Sandra just retired from her CPA practice and our daughter Jean just graduated from college. I've travelled a lot but been to very few places as nice as Penfield.
