

NeuroBridge Academy

a private microschool serving students in grades K–8

At NeuroBridge Academy, learning has purpose.

Students don't complete assignments simply to earn grades or check boxes. They engage in meaningful work that challenges them to think critically, solve problems, collaborate with others, and contribute to something larger than themselves.

Through student ownership, real-world projects, and authentic learning experiences, children develop the knowledge, confidence, character, and interpersonal skills needed to thrive in an ever-changing world.

Amber Griffith, M.Ed
Founder & Head of School

At NeuroBridge, your child will...

- Take ownership of their learning
- Create meaningful projects with pride and purpose
- Develop strong academic foundations
- Collaborate with others
- Pursue passions and discover new interests
- Learn through movement and exploration
- Develop confidence and independence
- Contribute to something larger than themselves
