M700系列

M700 Series is a extra heavy duty commercial mortise lock. All bolts are made of stainless steel with most working parts inside the case made of high strength steel alloy. It is UL listed for 3-Hour fire rating and meets/exceeds theANSI/BHMA A156.13 Grade 1 specification. The lock case has 3-5/8”(92mm) center cylinder to spindle dimension,allowing the lock to retrofit most manufacturers'mortise lock without or with minimal door prep modification thus maximizing the replacement capabilities.

M700 系列是一款超重型商用插芯锁。所有螺栓均由不锈钢制成，外壳体内的大部分表面部件由高强度合金钢制成。它已获得 UL 3 小时防火等级认证，并符合/超过 ANSI/BHMA A156.13 一级规范，适用于轨交、机场、商业、酒店以及医院等高安保场景。锁芯的中心距离到执手主轴中心尺寸为 3-5/8 英寸（92 毫米），安装门边距2-3/4英寸（70mm），无需更改门孔或换门的准备，适配改装大多数制造商的插芯锁，从而最大限度地提高替换锁体能力。

M700系列
