WHERE EVEN OUR ELECTROLYTES
ARE ELITE

SIGNATURE IV THERAPIES

THE LUMINOUS | 475

High-Dose Glutathione | Incremental Vitamin C

**When your skin needs a reminder
that it's meant to glow.**

Designed to boost skin radiance, clarity, and even-tone while supporting collagen integrity and cellular antioxidant defences.

THE SILENCER | 475

Magnesium Sulfate | B6

**When your nervous system
needs volume-cancelling headphones.**

Designed to promote relaxation, neuromuscular balance, and mental decompression during periods of elevated stress, mental fatigue, and overstimulation.

THE RESURGENCE | 495

L-Carnitine | Taurine | Glutamine | B-Complex | B12

Reclaim your energy. Restore your edge. Resurge.

Designed to boost energy, muscle recovery, and metabolic efficiency. Positioned for fatigue states, high-demand schedules and performance-driven lifestyles.

THE ASCENSION | 525

B-Complex | B12 | L-Carnitine |
Taurine | Glutamine | Lysine | Amino Blend

When running on fumes isn't a performance strategy.

Designed to boost focus, sustained energy output while supporting metabolic efficiency, neuromuscular function, and cognitive performance requiring precision-level mental clarity.

THE FORTRESS | 550

NAC or Glutathione | Vitamin C | Glutamine | Calcitriol |
Magnesium Sulfate | Zinc

Because resilience isn't optional.

Designed to boost immune support, cellular defense, and systemic resilience during periods of elevated stress, travel, and environmental exposure.

THE CONTINUUM | FROM 825

NAD+ Infusion

Because exhaustion is cellular.

Designed for cellular energy restoration, mitochondrial health, and long-horizon recovery—positioned for cumulative stress, systemic depletion, and burnout physiology.

*Frequently incorporated into physician-directed fertility protocols.

THE NDA | FROM 950

Niagen® Infusion

**You weren't here. Neither were we. Some upgrades
were never meant to be public.**

Designed for clients seeking advanced cellular optimization and metabolic resilience under sustained physiological demand.

HYDRATION THERAPY

THE RESET | 125

500 mL Isotonic Fluid Support
Supports fluid balance, circulatory stability, and
physiologic recalibration.

THE RESTORATION | 225

1000 mL Isotonic Fluid Support
Expanded volume support for systemic depletion,
recovery, and sustained physiologic demand.
Includes any TWO adjunct components.

Concierge Clinical Assessment (Required) | 250

Expedited Priority Access | 350

**Pricing reflects clinical expertise, travel, and bespoke administration of an individually
tailored regimen.**

ELYTE IV SOCIETY

WHERE EVEN OUR ELECTROLYTES
ARE ELITE

PRECISION TARGETED THERAPIES (IM)

THE QUANTUM LEAP | 250
NAD+
NAD+ without the marathon session.

Designed for targeted cellular energy optimization and metabolic support.

THE IGNITION | 75
Methylcobalamin (B12)
Flip the switch on fatigue.

Designed to support energy, neurological function, and red blood cell synthesis

THE METABOLIC SWITCH | 95
B-Complex
Brain fog is not a personality trait.

Designed to support metabolic regulation and cognitive function.

THE FURNACE | 125
L-Carnitine
Where stored energy finally gets put to work.

Designed to support fat metabolism and cellular energy production.

THE ARCHITECT | 75
Biotin (B7)
Structure. Strength. Surface-level glow.

Designed to support structural tissue integrity and cellular renewal.

THE RESURRECTOR | 125
Amino Blend
Because recovery is where progress lives.

Designed to support tissue repair, structural recovery, and muscular resilience.

PEPTIDES | INJECTABLE COMPONENTS

These therapies are most effective when delivered as part of clinician-directed protocols. Individual doses may not deliver peak outcomes without structured sequencing.

GLUTATHIONE IV

THE MASTER ANTIOXIDANT

Supports cellular antioxidant defenses, oxidative balance, and skin clarity.

2000mg | 95
4000mg | 175
6000mg | 245

PEPTIDES

BPC-157 | 55
Recovery. Repair. Regeneration.
Designed to support tissue repair and structural recovery.

TB-500 | 55
Cellular repair signaling.
Designed to support systemic recovery and cellular repair.

AOD-9604 | 65
Precision fat signaling.
Supports targeted fat metabolism and lipolytic activity.

GHK-CU | 65
Regenerative dermal signaling.
Designed to support skin integrity, collagen signaling, and visible renewal.

DSIP | 45
Sleep architecture support.
Designed to support restorative sleep and nervous system recovery.

THE DOMINION

Metabolic Control. Precision Directed. GLP-1 Therapies: Tirzepatide & Semaglutide.
THIS IS NOT A WEIGHT-LOSS PROGRAM. THIS IS METABOLIC GOVERNANCE.

Physician-directed metabolic therapy for targeted physiologic regulation, appetite modulation, and deliberate body composition refinement. Treatment protocols are individually tailored.

PRIVATE CLINICAL SERVICES.
Precision IV & metabolic therapies delivered discreetly in your preferred environment.
