

CHOCOLATE CHIP BAKE AT HOME BAKING INSTRUCTIONS

Pre-heat your oven to 350F- 375F. Place the batter in a bowl and fold 1 HEAPING cup of semisweet **chocolate chips (7 1/2 ounces)**, we always used mini morsels. Scoop the batter to fill each muffin tin 2/3 of the way full. Bake the muffins at 350F- 375F for 25-35 minutes. Once the muffins are golden brown and out of the oven give them a brush with the yummy glaze. Let them rest for approximately 10 minutes then give them one more brush. You can bake as few or as many as you would like. The Bake at Home muffin batter will yield approximately 14-16 muffins. The batter will keep in your refrigerator for up to two weeks. We are currently testing to see how well it keeps when it is frozen. Bake us Proud!

NOTE: different chocolates will give different flavors, but feel free to experiment.

Don't forget to tag us with a picture of your finished muffins. We love to see them.
