ISO 45001 Requirements for Top Management (003)
Lead with confidence and clarity

Course overview:

This course provides a clear overview of the leadership requirements in ISO 45001, specifically designed for Top Management. Learn how leadership influences the success of your Occupational Health and Safety Management System (OHSMS) and what your responsibilities are under the standard.

Prerequisite:

None required.

Course Objective:

To equip Top Management with the knowledge and awareness needed to lead, direct, and support the implementation and continual improvement of the OHSMS.

What you'll learn:

- The Context of the Organization: Understanding internal/external issues, interested parties, and risk
- Leadership & Accountability under ISO 45001
- How top management demonstrates commitment to environmental performance

Who should attend:

- Executives
- Senior Managers
- Department Heads
- Anyone in a leadership role responsible for OHSMS implementation or oversight

Duration and Delivery:

Instructor led – 1.5 hours – available in person or virtual
Self-directed (e-learning) – 1 hour
Flexible and Customisable

Cost:

      $800.00 (CDN) for instructor led course, up to 10 students + taxes (travel costs not included)
      $75 (CDN) per student for Self-directed, e-learning course
