

ISO 14001 Requirements for Top Management (002)

Lead with confidence and clarity

Course overview:

This course provides a clear overview of the leadership requirements in ISO 14001:2015, specifically designed for Top Management. Learn how leadership influences the success of your Environmental Management System (EMS) and what your responsibilities are under the standard.

Prerequisite:

None required.

Course Objective:

To equip Top Management with the knowledge and awareness needed to lead, direct, and support the implementation and continual improvement of the EMS.

What you'll learn:

- The Context of the Organization: Understanding internal/external issues, interested parties, and risk
- Leadership & Accountability under ISO 14001
- How top management demonstrates commitment to environmental performance

Who should attend:

- Executives
- Senior Managers
- Department Heads
- Anyone in a leadership role responsible for EMS implementation or oversight

Duration and Delivery:

Instructor led – 1.5 hours – available in person or virtual

Self-directed (e-learning) – 1 hour

Flexible and Customisable

Cost:

\$800.00 (CDN) for instructor led course, up to 10 students + taxes (travel costs not included)

\$75 (CDN) per student for Self-directed, e-learning course
