

QMS Awareness Training (018)

Get everyone speaking the language of quality!

Course overview:

This concise, focused workshop is ideal for individuals seeking a general understanding of QMS principles. Your own QMS materials can be included into the course, i.e. Quality Policy, Control Plan and Quality Objectives.

Prerequisite:

No prior knowledge or experience is required.

Course Objective:

To provide a solid introduction to Quality Management Systems and the ISO 9001 standard — equipping participants with the foundational knowledge needed to understand how QMS applies to their organization or industry.

What you'll learn:

- The context and purpose of a Quality Management System (QMS)
- How to identify Key Performance Indicators and Critical Quality Control Points
- The key clauses of ISO 9001 relevant to QMS implementation

Who should attend:

- All employees

Duration and Delivery:

1 hour – instructor led, on-site or virtual

- Your own QMS materials included into the course, i.e. Quality Policy, Control Plan and Quality Objectives

30 min. – self-paced course

Flexible and Customisable

Cost:

\$800.00 (CAD) + taxes, instructor led, limit for students is only limited to classroom size

- Discounts available for multiple deliveries in one day
- Instructor travel costs not included
