WHY: TO PREPARE THE TRADES4LIFE CAMPUS FOR THE INCOMING CLASS OF 2025

Trades4Life is an annual program that takes place in Belmopan, Belize. The program is for men to introduce them to a trade such as welding or mechanics. The students learn life skills, such as how to dress and why it is important to show up on time. They are presented with the gospel regularly and have devotions each morning. Most of the instructors come from Canada and South Africa. Our goal is to have the campus ready for the instructors when they arrive so they can focus on preparing their classes for the students. This is accomplished by cleaning the cabins and remodeling/repairing the campus as needed.
