

Whitchurch Village Plan

Questionnaire results and next steps

The Village Plan Steering Group presented the results of the Questionnaire and its recommendations to the PC on 8th July and can now begin to share these with the village.

We asked a broad range of questions about village life and how people felt about future development. We also asked specifically if people supported a Neighbourhood Plan or a Community Plan.

- **43% of village households responded**
- **80% would like both plans**

There is a lot of detail in the questionnaire results: many comments about living in Whitchurch, concern about the traffic & parking. People said we need suitable housing for families and local people. Overall, people said they want to protect & preserve the village, and build up community spirit.

As a result the PC has asked the Village Plan Steering Group to go ahead and prepare 2 plans, drawing on the views provided by the village in the questionnaire.

We'll post regular updates in the Whitchurch News and also on our website, with more detail from the questionnaire and progress on the plans.

The work starts now, keep in touch at www.whitchurchplan.com
