## **Grant County Multi-Hazard Mitigation Plan available for review**

Grant County Emergency Management (GCEM) has completed a draft update to the County-wide Hazard Mitigation Plan and the update is available for review and comment. An update to the plan is required every five years by the Federal Emergency Management Agency (FEMA). This new plan will update the 2013 Grant County Multi-Hazard Mitigation Plan. GCEM utilized a federal pre-disaster planning grant and partnered with Southwestern Wisconsin Regional Planning Commission to undertake the planning and public outreach for the Plan update.

The plan identifies potential natural and man-made hazards that communities in Grant Co. are likely to experience based on historical occurrences. The plan then outlines potential cost-effective actions to mitigate the human, environmental, and economic impacts of potential hazards.

A completed draft plan can be accessed through Grant County's website, <http://www.co.grant.wi.gov/>. Or can be accessed directly with the following link:

<http://grantcountylandrecords.com/GrantCountyMultiHazardMitigationPlanDraft2018.pdf>

If you have any questions or would like to provide comment on the Plan please contact Matthew Honer.
