

Virginia Chapter, American College of Surgeons
& Virginia Surgical Society

2019 Annual Meeting Program

**Hilton Richmond Hotel & Spa at Short Pump
Richmond, Virginia
May 17th & 18th, 2019**

CONTINUING MEDICAL EDUCATION CREDIT INFORMATION

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Surgeons and Virginia Society of Otolaryngology. The American College of Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™

The American College of Surgeons designates this live activity for a maximum of xxx AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMERICAN COLLEGE OF SURGEONS

Inspiring Quality:
Highest Standards, Better Outcomes

100+years

AMERICAN COLLEGE OF SURGEONS
DIVISION OF EDUCATION

Educational Objectives

The goal of this activity is to implement a forum for the latest information regarding clinical practice and research in the field of surgery.

Attendees will identify cutting edge treatment for surgical issues, both general and subspecialty.

Disclosure Information

In compliance with the ACCME Accreditation Criteria, the American College of Surgeons must ensure that anyone in a position to control the content of the educational activity has disclosed all relevant financial relationships with any commercial interest. All reported conflicts are managed by a designated official to ensure a bias-free presentation. Please see the insert to this program for the complete disclosure list.

Exhibits

We extend our sincere appreciation to companies that have supported this conference. All refreshments will be served in exhibit area. Please visit the exhibitors!

Guest Speaker

DR. PAUL HENDRICK SUGARBAKER was born in Baltimore (MD, USA). His college education took place at Wheaton College in Illinois. He graduated from Cornell University Medical College in New York (USA) and from there went for his surgical training at the Peter Bent Brigham Hospital in Boston (MA, USA), now known as Brigham and Women's Hospital. He received a Masters Degree in Immunology at the Harvard School of Arts and Sciences in 1983. At the NIH he was a Senior Investigator from 1976 to 1986. After a brief stay in Atlanta at the Emory Clinic he moved back to Washington (DC, USA) to become the Medical Director of the Washington Cancer Institute. He

has been at the Washington Cancer Institute since 1989. Currently, he is the Director for the Program in Peritoneal Surface Oncology. His interests are in gastrointestinal cancer, gynecologic malignancy and mesothelioma. For many years his work focused on liver metastases. Currently, his clinical and investigative work is directed at the peritoneal surface component of gastrointestinal cancer dissemination, referred to as peritoneal metastases. Dr Sugarbaker is a strong critic of surgical tradition; he believes that major changes in the technology of cancer resection are necessary. His theme, 'It's what the surgeon doesn't see that kills the patient', summarizes the concepts behind many of his publications both in the peer-reviewed medical literature and in the lay press. In the opinion of Dr Sugarbaker, perioperative intravenous and intraperitoneal chemotherapy are an essential planned part of many cancer interventions.
