

BINGO

NC Miata Cubby System

Single Rack - Installation & Use Guide

Attaching the Rubber Feet

- The rubber feet are shipped with protective red tape covering and adhesive strips.
- This allows you the option to paint BinGo before attaching feet.
- When ready for installation, remove the red tape and firmly press the feet into place for a secure bond, if desired.

BinGo Installation

- If using velcro on lower carpet, clean the bottom shelf of cubby and attach provided velcro tab for the lower carpet *(optional), do not install carpet at this time.
- Insert BinGo into cubby push firmly back and down.
- Install the lower carpet. The carpet sits between BinGo's feet not under them.
