

Capabilities and Services

Altitude Steel offers Carbon Steel, Stainless Steel and Aluminum shapes, sheets and plates.

We have a complete fabrication shop. Our experienced welders, along side our saws, drills, iron worker and CNC Plasma machine can complete your fabrication job with quality and precision. We offer start to finish solutions for every project. We specialize in custom fabrication of interior and exterior steel applications for your home or business. No job is too big or small, please contact us for quotes on material or fabrication.
