From the Publisher

Two decades ago, a crazy idea was born from the love of dolls. Every day of my life became consumed with my hobby, but what could be better than doing what you love for a living? And so, Fashion Doll Quarterly was launched at an evening soirée at the showroom of the Alexander Doll Company. Since the launch in 2003, FDQ has published 69 regular quarterly magazines, 23 unique event and holiday issues, two calendars and three books. I have traveled the world, from Australia to Japan, Italy, The UK, Canada and many of these great United States, all to share my love and passion for fashion dolls and to report on my adventures to you, the reader. Our goal in 2021 is to digitize all of these issues so they will live on for another generation to discover and read all about the glamorous, glorious world of the fashion doll and all that it encompasses.

WINTER 2016

Comics

On the cover: FDQ gets an exclusive first look at Kingdom Doll's "Camelot" event doll, "Guinevere". This iconic consort to King Arthur wears resin wings and a berry satin charmeuse strapless gown, scattered with beads and sequins. Wig by Illaria. New sculpt is called "Carvetii". The Carvetii were an Iron Age people and were subsequently identified as a civitas (canton) of Roman Britain living in what is now Cumbria, in North-West England.

KINGDOM DOLL

Compendium

On the cover: The Kingdom Doll "Camelot" event doll, Guinevere, photographed by Alexandra Forbes for Kingdom Doll, UK.

www.fashiondollquarterly.co

The KD Compendium is something of a photo album, covering the first three years of the UK-based doll company. The book includes all the coverage of the company from FDQ issues, along with exclusive photography from Kingdom Doll that was used to announce, and sometimes tease, new and possibly future dolls to the line.

The Compendium takes you from the initial debut of “Nelson” and our covergirl, “Brighton” up to the Camelot event, as well as the introduction of the Kinsmen and the newest sculpts of the time, such as Carvetti, and Icini. The book includes a timeline of the product drops along with the head sculpt names and their use for different dolls up to 2016.

The book is out of print and was not made available in digital format. As more and more collectors depend on the internet for information, this book may become more valuable as an instand reference guide to the beginnings of a now very successful doll company.

Gothic

Who better to personify the dark and twisty vibe of gothic than Wilde Imagination's Evangeline Wilde? She is dramatic, romantic, and just a little twisted. We think that makes her just perfect for the cover. Evangeline wears a OOAK ensemble and a new wig designed by Joe Petrollese for Wilde Imagination. Photography by Susan Renée Tomb.

CLOSING

About Fashion Doll Quarterly

Although FDQ is no longer being published, we will be digitizing all of the issues we have produced since 2003, including our special convention issues. It has been very enjoyable looking back and revisiting Fashion Doll Quarterly over the years, and it has been heartwarming, and even bittersweet, reading the work and enjoying the art and photography of friends we cherish, as well as those who are long gone.

What remains is a record of a generation in which dolls brought millions of avid collectors together for events, conventions and discussions online to share their passion for fashion dolls and their world.

Be sure to check back on our website as new additions from our archive are made available for download to your tablet or desktop, so you can carry multiple issues wherever you go without all that bulk.

Thank you all for taking this journey along with us!
