

BUS EVACUATION AND SAFETY PROCEDURES

At Cherokee Charter Academy, student safety is our primary responsibility. Making sure the students are safe to and from field trips, as well as athletic events, is our top priority.

Each school year our students will participate in a bus evacuation drill. The purpose of the drill is to ensure that all students learn how to properly evacuate the bus in the event of an emergency situation. By signing the signature page, you are giving your child permission to participate in the bus evacuations drill, as well as, ride the bus after learning the proper procedures.

Please sign the CCA Signature Page stating that you have read and understand this information.
