

AMPP (C3) Supervisor/Competent Person Training for Deleading Industrial Structures

Location:	150 Executive Park Blvd., San Francisco CA (1st floor training room)
Dates:	October 7-10, 2024 (M-Th, Four days / 32 hours)
Time:	Daily 8 am - 5 pm (Includes lunch)
Facilitator:	Alison B. Kaelin

Completely updated in 2022, and again in 2023, C3 contains specific discussions on protecting workers, compliance with OSHA and EPA regulations, proper management of waste streams and operations that result in potential exposures to lead and other hazards, along with associated control technology. This course includes background information on the hazards of lead and other toxic metals as well as a review of the current legal and regulatory issues and upcoming changes slated for 2025.

Who should attend

- Painting Contractors, Competent Persons, Specifying/Project Managers, Environmental Health and Safety (EH&S) Personnel, Engineers, Consultants, Inspectors, Facility/Risk Managers

Benefits of attending

- Identify sources of hazardous coatings and materials, and the relative risks posed by industrial painting activities
- Describe the potential health effects of hazardous coatings/materials
- Implement controls and work practices necessary to protect the public, environment, and workers during industrial and hazardous coating removal activities
- OSHA and EPA regulations applicable to industrial painting activities

What this course covers...

- Hazardous coatings and materials in industrial painting
- Legal and liability issues
- Air, soil, water/sediment and dust regulations and monitoring strategies
- Worker protection from hazardous coatings/materials
- Respiratory protection and PPE
- Management of solid and hazardous wastes
- Sources of hazardous coatings exposure
- Control of environmental releases (containment and ventilation)
- Specifications, submittals, and site-specific compliance programs
- Pre-planning and worksite preparation
- Competent Person (CP) responsibilities/demobilization

Course format:

Each participant will receive a comprehensive manual that includes references for additional reading and copies of relevant handouts. Hands-on workshops following most of the units reinforce the key points and give students the opportunity to test their knowledge. Quizzes help students prepare for the 100-question; multiple-choice exam administered at the end of the course. To receive a certificate and CEUs, you must attend all 32 hours of the course and attain a 70% or better score on the exam.

Training by ABKaelin, LLC – Host: Aurora Environmental Services, Inc. / Julie - jzak@auroraesi.com / (707) 477-2311
