Safety Gear Requirements:

- **Hardhats, Safety Shoes, Safety Glasses, and Safety Vest ARE required to attend. Jifco will have limited number of PPE available, if some members don't have it.**
- **All attendees MUST wear long pants.**
- **Steel-toed shoes ARE REQUIRED.**

The AMPP NorCal Chapter has scheduled a tour of Jifco Fabricated Piping in Livermore, CA on April 16, 2026. Jifco was founded in 1981 and designs, engineers, fabricates, lines, and coats carbon steel and stainless steel pipes and fittings for water treatment plants, wastewater treatment plants, pumping stations, irrigation distribution systems, and collection systems. Jifco fabricates 3 to 120 inch diameter pipes, with 12 gauge to 1 inch wall thicknesses. They handle pipe segments up to 65 feet long and 40,000 lbs. (20 tons) in weight. Jifco applies cement mortar, coal tar epoxy, vinyl, high build, and polyurethane linings. Coatings include cement mortar, coal tar epoxy, vinyl, tape, primers, high build, and polyurethane. All work meets AWWA, ASME, ASTM, and API standards.

The tour will take 2 hours. **A sandwich lunch will be served after the tour.**

Please join us on a tour to see how the piping used in our municipal water and wastewater industry is produced!

REGISTRATION:

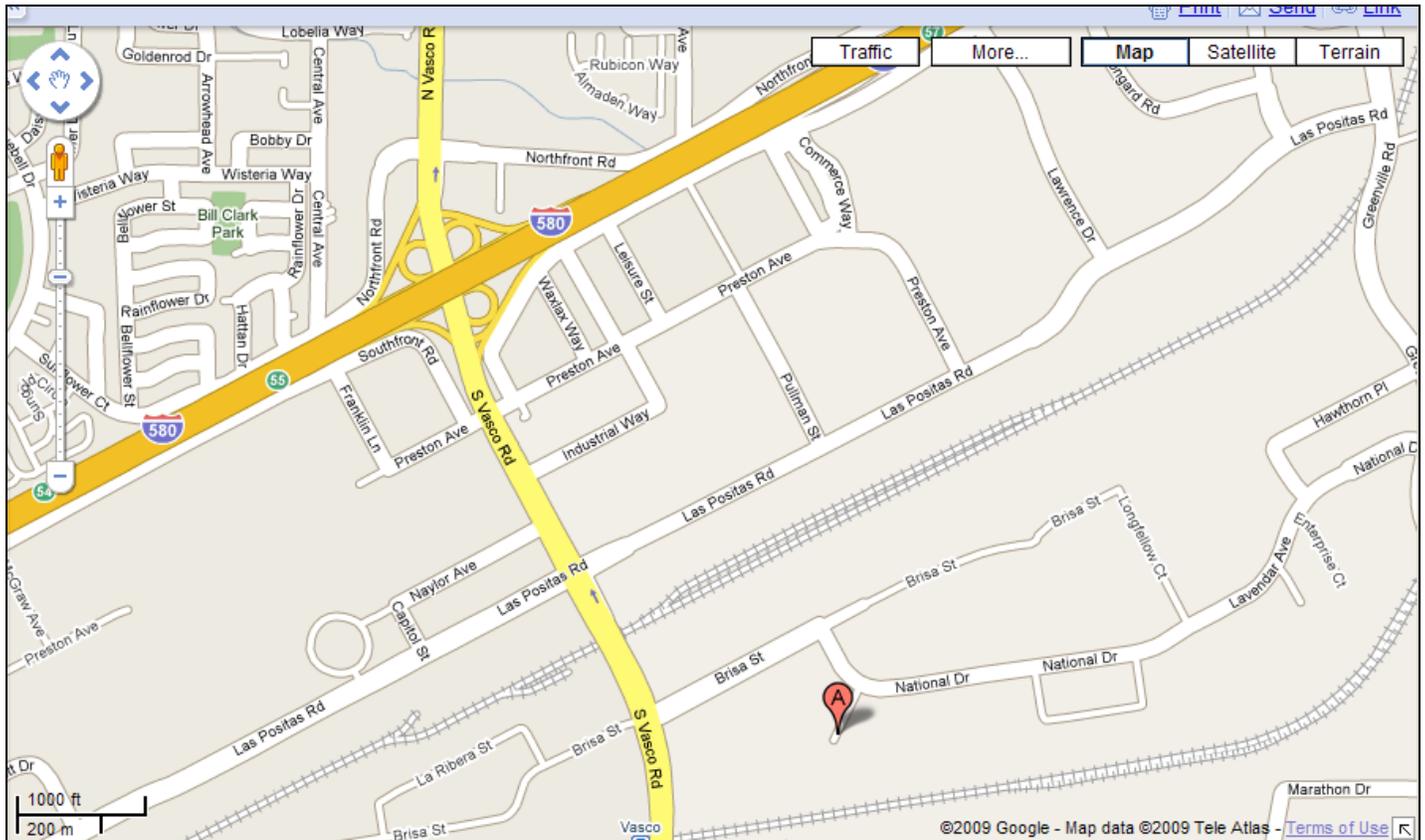

Please provide payment to reserve your spot for the tour at the link below. You will be notified if the list is full and we will place your name on a waiting list in the order received.

Cancellations should be made ASAP for people on the waiting list to attend.

- **Tour on Thursday April 16, 2026:**
