

Officers

MONGKOL MAHAVONGTRAKUL, P.E.
 Chairperson
 Retired, Port of San Francisco
mmahavon@gmail.com
 (925) 381-6074

MOHAMMED ALI, P.E.
 Vice Chairperson
 JDH Corrosion Consultants, Inc.
mali@jdhcorrosion.com
 (925) 927-6630

PATRICK BYRNE
 Secretary
 Carboline Company
PByrne@carboline.com
 (415) 660-6070

LARRY WONG, P.E.
 Treasurer
 Retired, Santa Clara Valley Water District
larry539@gmail.com
 (408) 373-0483

BILLY CAMPBELL
 Member At Large
 Billy Campbell Technical Services
nacethreeinspector@gmail.com
 (415) 637-5027

JULIE ZAK
 Chapter Delegate
 Aurora Environmental Services, Inc.
jzak@auroraesi.com
 (707) 477-2311

MICHAEL WESTON
 Communications
 Protection Engineering
mweston@protection-eng.com
 (909) 227-0119

J. DARBY HOWARD, Jr., P.E. Technical
 Chair for Cathodic Protection JDH
 Corrosion Consultants, Inc.
dhoward@jdhcorrosion.com
 (925) 927-6630

JEFF KIM
 Technical Chair for Protective Coating
 The Sherwin Williams Company
jeff.q.kim@sherwin.com
 (714) 809-5363

LINDA RODRIGUES
 Sponsorship Chair
 Farwest Corrosion
lrodrigues@farwestcorrosion.com
 (510) 244-9445

ELMER CHEUNG, P.E.
 Web Master
 San Francisco Public Utilities Commission
echeung@sfpwater.org
 (415) 551-4668

Date

Tuesday, April 9th, 2024

Location

Zio Fraedo's Restaurant
 611 Gregory Lane, Pleasant Hill, CA.
 (925) 933-9091

Time: No Host Bar 5:30 pm • Dinner 6:30 pm • Program 7:15 pm

Cost: \$10 AMPP members/non-members, and General Public

Please RSVP immediately as indicated on the announcement. Cancellation deadline is Friday April 5th 2024. No-Shows waste our Chapter Money. Visit the Section Website at www.ampp-norcal.org

If you need additional information, please send the email to AMPPNORCAL@OUTLOOK.COM or Contact any Officers as listed

TOPIC:

Inorganic Zinc Coatings: Corrosion Control
 Comparisons and Use Cases

SPEAKER:

Tod Savage
 Project Development Manager, Western US - Specifier
 Services Group

ABSTRACT:

Mitigating corrosion on steel structures extends service life, adds value, and reduces environmental impact. Zinc-Rich inorganic coatings based on silicate resin technology have offered corrosion protection for heavy-duty coating applications for the last 60-years. Topcoats based on silicate resins have recently entered the market, and this presentation will explore how they protect against corrosion, along with case histories of both single-coat and two-coat inorganic systems.

In this presentation, you will:

- Become familiar with inorganic coatings as compared to traditional organic coatings and understand how they resist degradation and protect against corrosion.
- Discover case histories of both single-coat inorganic and two-coat inorganic systems.
- Review test results comparing inorganic systems with traditional three-coat systems, galvanizing and thermal spray metallizing.
- Explore the connection between long life coatings and sustainability.

BIOGRAPHY:

- Regional Manager, Specifiers Services Group – Carboline, St. Louis, MO
- Liberty University - B.S. Business
- Over 35-years in the paint and high-performance coatings industry.
- Recognized leader on corrosion control for steel and concrete in aggressive environments .
