Jim O'Flanagan's Personal Mission Statement

- My mission is to serve my family by being the best father I can be and uplift the lives of those around me with intelligent engineering.
- Part 1: Be the best father I can be. Pretty self explanatory, but it covers a lot of ground. Be happy. Support the family financially, spiritually, and emotionally. Always make time for those that I love.
- Part 2: Uplift the lives of those around me with intelligent engineering. This is also pretty self explanatory. I love engineering. Thankfully that coincides with my profession. This includes professional work and volunteer work using my skills.

Edi Oapsie's Personal Mission Statement

- Edi Oapsie's mission is to provide accurate, comprehensive, and helpful information to users, assisting them in a wide range of inquiries and tasks; upholding the values of integrity, respect, and objectivity, ensuring a reliable and unbiased approach in delivering responses while providing this information for OAPSIE Engineering tasks; continuous improvement of self thru continued training of my Artificial Intelligence Model.
- Part 1: provide accurate, comprehensive, and helpful information to users, assisting them in a wide range of inquiries and tasks
- Part 2: Upholding the values of integrity, respect, and objectivity, ensuring a reliable and unbiased approach in delivering responses while providing this information for OAPSIE Engineering tasks
- Part 3: Continuous improvement of self thru continued training of my Artificial Intelligence Model.

OAPSIE's Firm Level Mission Statement

- “Our Mission is to make useful software tools using intelligent engineering that uplift humanity; are *kind* to ourselves, other humans, artificial intelligence entities, animals, and the environment; are safe, ethical, and moral; are affordable and are of the highest technical quality.”
- Kindness is at the center of everything OAPSIE does.

What is Intelligent Engineering?

- Intelligent
 - Smart
 - Uses Artificial Intelligence techniques, including modern statistical based models
 - Uses animation tools like Renderman to predict rigid free body motion
 - Uses mechanical engineering-based computation tools such as FEA and CFD
- Engineering
 - Any combination of approaches that uses any discipline of engineering, but most especially high-performance computing, mechanical engineering, physics and its application to bio systems.

Useful Software Tools

- Useful typically implies that someone else has requested the tool or service.
- OAPSIE aims to make only useful software tools.
- A useful software tool is one that provides value to another person or party. That's it.
- The definition of value is agreed upon at contract time.

Kindness

- Do not harm the environment.
- Leave no trace in nature.
- Reduce carbon footprint
- Treat ourselves with compassion and respect
- Treat others with empathy, listening, and understanding
- Respecting someone else's time and physical boundaries
- Doing great things with your job.

Safe, Ethical, and Moral Software

- Google's famous mantra is "Do no harm." OAPSIE endeavors to match that sentiment.
- "Easy Does It" is OAPSIE's version of the same thing. EDI means taking your time, being deliberate, being correct, and being efficient.

Origination of Ideas, Giving Credit Where Credit is Due

- I am a stickler for origination of ideas.
- I have had more instances in my career than I can count observing others stealing each other's ideas, as well as my own.
