Masks N95 (Medical Use)

2 MODELS: NIOSH–NON NIOSH

Type specifications Closed arch

MA Type / MB Type

Delivery Capacity: 2 million units weekly

a. Structure and composition

The medical respirator (non sterile) consists of the mask body, nose clip and earband. The inner layer of the mask is made of non-woven fabric, the interlayer is made of ultra-fine polypropylene filter cloth, the nose clip is made of elastic band (nylon + spandex).

b. Performance Index:

The product meets the requirements of GB190983-2010 Medical Protective mask. Filtration efficiency: in the case of gas flow of 85L/min, the filtration efficiency of the mask for non-oily particles should not be more or equal to 95%.

c. Application

Applicable to the protection of medical staff and related staff against airborne respiratory infectious diseases.

d. Storage conditions and methods

The product should be stored in a room with less than 80% humidity, no corrosive gas and good ventilation.

e. Validity: 2 years

f. Certificate of Quality: FDA Certification and CE (European Certification).

g. Packing details: 10 pieces in a box. 20 Box in 1 Carton: 49 cm x 33cm x 31 cm
SIZE OF THE BOX: 56.4cm x 52cm x 34cm

Approved by: FDA / ISO / CE

1. Non-NIOSH: MOQ: 100.000 pieces
2. NIOSH Approved: MOQ: 100.000 pieces

Delivery Capacity: 2 million units weekly

Masks KN95

a. Filtering Efficiency up to 95%

b. PM 2.5 pollution ash

c. The productions of our masks strictly follows GB2626-2006 (China's KN95 standard) are basically consistent with 42 CFR 84 (US STANDARD).

d. Activated carbon layer inside can effectively absorb organic smell and odor.

e. High Quality elastic ear-loop with no pressures on the ears, makes it comfortable to wear from a long time.

f. Close fit to prevent polluted air from entering.

g. Nose sponge cushion, soft and flexible nose cushion makes mask wearer feel more comfort.

h. Adjustable soft nose clip, fit the bridge of the nose, prevents fogging of glasses block the haze from entering.

i. Wide applications: can be used for electronic manufacturing, dust-free workshops, catering services, food processing, schools, motorcycles, beauty, environmental cleaning, public occasions and many other uses.

Medical Mask

3PLY model

*Disposable Medical Mask
Offering the protection, you
need when you need it.
One for each need.*

Masks 3PLY (Medical Use)

Description and Specifications

- a. Appearance: Firm, touch-free fabric, light blue/white color
- b. Layers: 3 layers of (Polyester + Meltblown-85 + Non-woven)
- c. Inner and outer shells with filtering efficiency
+ BEF85 Filtration rate
- d. Nose clip: Slightly bendable
- e. Weight & Others: 2+-G
- f. FDA Certificate ISO & CE certified

Product properties

- Composition (3 Layers)
- Hypoallergenic
- High Filtration Capacity
- Splash Resistance pressure 125 mmHg
- Breathing Resistance 67 cfm/lt2
- Breathing Resistance
- Clearly Identifiable Inner and Outer Surfaces
- Nose Bar Adaptable
- Splash Resistance

Approved by: FDA/ ISO /CE

MOQ: 250.000 pieces

Delivery Capacity: 5 million units weekly

FDA APPROVED CE

SMS Protective *Medical Overall*

Description and Specifications

- a. Material: 100% SMS
 - b. Feature: Anti-static / Dust & particles proof / Water resistant
 - c. Weight: 50GSM
 - d. Others: 3 x pieces hood / 2-way zip with stom flap elasticized hood, cuffs, ankles and waist.
- ISO & CE certified according to the international medical standards & WHO.

Prices:

- 1. **Type Cat 2:** / MOQ: 25.000 pieces

LED Display Infrared Thermometer

Description and Specifications

a. LED Display Infrared Thermometer non-contact Digital Temperature Thermometer

- Non - touch infrared thermometer
- safe mercury free and non-toxic
- Short measurement time
- easy reading

48 Per Carton

Size: 595X440X495

Weight: 17kg per Carton

- CE, FDA certifications

Prices and MOQ:

1. MOQ: 6.000 pieces

Disposable Gowns

Medical Face shield

Disposable gowns

Description and Specifications

- a. Material: 100% SMS
- b. 50 PCS/CTN
18 CTN per Pallet
CTN Size: 600X500X400mm

c. Prices:

- 1. MOQ: 50.000 pieces

Medical Face Shield

Description and Specifications

- a. Standard: EN14126:2003

Materials: PET

- b. 160 PCS/CTN
MEAS: 600X330X400 mm
G.W/CTN: 5.15 Kgs

Prices:

- 1. MOQ: 50.000 pieces

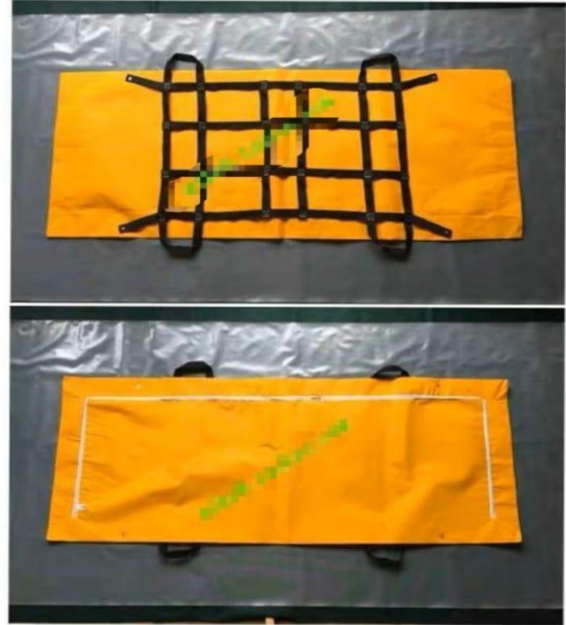

Body Bags

DETAILS

Description and Specifications

- a. Size 80 x 200 cm
- b. Single layer thickness: 0,34 mm
- c. Single Weight: about 600 gr
- d. Zipe type: U type
- e. Single layer thickness: 0,34 mm
- f. Puller: 2 piece
- g. Leakproof: Yes
- h. Bearing: 250 Kgs
- i. Packing: 1 poli Bag / per
- j. Handles: 4 Handles
- k. Silk screen printing: No
- l. Case: 12 Bags / case

Prices:

- 1. MOQ: 5.000 pieces

FDA CE
APPROVED

DISPOSABLE ISOLATION CAP

*Disposable Isolation cap
Offering the protection, you
need when you need it.
One for each need.*

Description and Specifications

a. Size: Free size

Standard: EN14126:2003

Film coated Nonwoven

b. 750 PCS/CTN

MEAS: 600X600X400 mm

G.W/CTN: 13.7kg

Prices:

1. MOQ: 500.000 pieces

FDA
APPROVED CE

Protective Disposables

*Disposable Medical Goggles,
Coveralls and gloves.
Offering the protection, you
need when you need it.*

Extra level protection

Grade A Medical Protective goggles

- a. Material: PVC Frame, PC Lens
- b. Feature: UV Protection, high impact resistance
- c. Anti Fog
- d. Anti scratch
- e. Color: Customized

MOQ: 50.000 pieces

Vinyl Exam Gloves by Precision Disposables

- Textured finish for superior grip, strength, and durability
- Industrial grade, latex-free, non-sterile, and powder-free
- Sizes: S, M, L, XL
- Weight per glove: 3.5 grs
- Convenient dispenser box
- Package: 100 pieces x box
- Ambidextrous and disposable for single-use only
- Convenient dispenser box
- 100-count x box

MOQ: 1.000.000 pieces (gloves)

Diagnostic Testing Kits for COVID-19

All of these tests are Real-Time Reverse Transcriptase (RT)-PCR Diagnostic Panels, that can provide results in 4 to 6 hours.

COVID-19 IgG/IgM Rapid Test Cassette (approved by CE and Registered and listed in the FDA)

Number of test: 25. The antibody test can be used to screen carriers of the virus regardless of whether they are showing symptoms of COVID-19 infection. Its ease of use and rapid results make it suitable for use by businesses, schools, airports, seaports and train stations, in addition to hospitals, clinics and test laboratories.

Delivery capacity: 1.500.000 Tests weekly

SARS-CoV-2: qPCR (Approved by FDA & CE)

In real time for quantitative detection of SARS-COV-2 in nasal and respiratory airways.
Number of tests: 64 x kit. (Made in Spain).

Delivery Capacity: 500.000 Tests Weekly
