

[MVIA Hockey FAQs](#)

My child wants to learn to play hockey but does not know how to skate, where do I start?

Basic skating skills are required for hockey. We recommend that a player with no prior skating experience take a Learn to Skate class at MVIA to be successful in hockey. As an option, you may also want to take private skating skills lessons. Email our skating director for my info: mtnviewsa@gmail.com

Do you offer hockey skills lessons?

- For hockey players at the Basic 4 level and lower, we offer a Learn to Skate program.
- For hockey players at the Basic 5 level and higher, we recommend joining the MVSA to take part in the Aspire Hockey Skills class.
- Also, we also offer private hockey skills lesson. Please send an email: mtnviewsa@gmail.com
- Not sure where to start? Please send an email: mtnviewsa@gmail.com
- No pads or sticks are needed for the skills lessons.

I am new to hockey; do you provide equipment?

We have some mini-mites (age 6 and under) equipment to borrow. Please contact our general manager for more info: bob@mtviewice.com.

What type of hockey equipment do I need?

Hockey players are required to wear full gear including pads and helmet. Please contact our general manager for equipment suggestions: bob@mtviewice.com.

How do I register my youth for a local hockey league?

You can register your child with the local hockey youth hockey association: <http://www.vyha.org/contact>.

My child is new to hockey, where can a parent learn more about hockey?

Please use the guide provided by USA Hockey for parent education: <http://bit.ly/usahockeyparentguide>
