Tips for teaching
at home

For parents

Tips for teaching

Create, implement and maintain a Visual Schedule / Daily Routine

Show the child when to begin and end an activity

Put activities into meaningful steps

Review or practise each activity often until the child is good at it

Use Assistive Technology such as computers, videos, iPad, phones, and other materials in a different way

Explain what to do using things the child knows

Provide activities that are fun, not too lengthy or challenging

Praise the efforts and successes of the child
