Upcoming Reception for newly tenured faculty and retiring faculty (all welcome)

Policies, procedures, hub for people to share information

Topic: Concurrent enrolment and how adult school students are being disadvantaged with the Promise Grant

Felisa mentioned a concern to Karen: Adult School Students-College Promise-De Anza creating a policy (concurrent enrollment students, they are considered a new De Anza student)

Foothill: has a different policy

*Karen Chow offered to join Student Support workgroup meetings

Peggy has data (5 mil revenue from our Adult Ed students to CC within the consortium)

Data Workgroup-Chair may also be interested in attending to answer any questions

This can be shared with the Academic Senate and Opening Day in September right before the Fall Quarter and then it can be brought to the Academic Senate (proposal to be placed on the agenda).

Foothill College is also open to us sharing this information at a future meeting as well.

Peggy: Leadership Board for the Consortium (decided not to submit something for opening day)

-Peggy will reach out to the leadership board about reconsidering; Karen and Felisa will help with application.

How Foothill is managing it: Concurrent enrollment students, the class doesn't count against them and they may qualify for the Promise Grant. Foothill's Financial Aid was not aware of this.

2. Presentation from Foothill and De Anza- (1 hour)

Stephanie Anchondo - Outreach Coordinator

She can provide copies of the promise worksheet (and other worksheets in the packet) if you share contact info with her

Special Circumstance-The school will make the decision if students with disabilities can qualify even if they aren't full time students. At this time, it only includes this specific population.

Some schools offer: Promise program designated counselor
