Discuss Healthcare Pathway Map & TST student support (9:37 – 10:40)

Here is the updated Healthcare Pathway Map. Although we are focused on the **Grant's pathways (AS: Med Term/English, CNA, MA & CC: CHC Worker & Phlebotomy)**, we know that not all students will want to pursue these pathways; therefore, this map includes all of the AS & CC healthcare pathway options for consideration.

It is understood that the list is too extensive; therefore, we are asking the Healthcare Pathway Team, TST, and LB members at each individual agency (AS & CC) to discuss these options and decide what additional HC pathways (other than the Grant options) will be promoted to your students– if any. This will be left to the individual schools to decide what is best for their students.

Next Steps (before 5/23):

1. Meet with your team and discuss the map– decide what additional options you would like to be on your agency's HC Pathway Map.
2. In this individual agency team meeting, please also discuss how the summer and fall pathway options will be promoted to your students (AS & CC noncredit ESL).
3. Next TST meeting (5/23), we will be discussing individual agency input and how your recruitment into these summer and fall pathway options is going. The HC Pathway Team is invited to this meeting.

Check in on TST Calendar & COUN5 enrollment numbers (10:40 – 11:00)
