

YOUR RESOURCES

Finishes + Materials Tracker

Your project's master spreadsheet contains quick-reference images, product links, status updates, and notes for each individual material and finish in your design. This *living* resource is routinely updated and available to you 24/7, so you always feel looped-in!

Design Boards

Design Boards are created to assist you in visualizing the planned changes. You'll be able to see how your new selections "*play together*" for a cohesive, functional, and beautiful finished product. No second-guessing needed.

Design Planning Checklist + Construction Schedule

These tools provide clarity on action-items and sequencing for your project, from start to finish. This *living* resource will be frequently updated and available to you 24/7, so you always know what's in the works and what's coming next. Solid organization and clarity are key to our successful partnership!

Change Order Tracker

This spreadsheet ensures we are on the same page regarding any Change Orders or Additions you have approved after the plan is in place - providing transparency and an easy way to track modifications.
