Dear Carriage House Residents,

As you may have noticed the driveways are marked and the company is ready to begin repairs on Tuesday, July 24th. They are estimating the project to be completed by Tuesday, July 31st ([weather permitting](#)). The project will be done in three phases. When your building is being worked on you will not be able to park your vehicles on the driveways. Please utilize the Carriage House guest parking and the main pool parking lot. Residents, please do not park in those spots if your driveway is not being repaired so there is enough parking for those who will need it. If there is any changes we will post in the bulletin boards and email.
