

Windows designed for beauty,
engineered for comfort.

Energy Star Qualifications

With the right windows, no matter what it's like outside, you will feel comfortable inside. We use our state of the art window technology for maximum thermal efficiency. Which means you stay cooler in summer and warm in winter. Of course, with increased efficiency comes increased savings and there's nothing like saving a few dollars to make you feel warm all over.

Glass Type	Performance Rating		Energy Star Zones US	AAMA / WDMA 101 / I.S.2/A440-08	U-value Imperial	U-value Metric
	Energy Rating	Energy Star Zones				
Evolv	35	1 2 3	N	CW-PG65-C Size Tested 800mm x 1600	0.23	1.31
Evolv 272	27	1 2	N/NC	CW-PG65-C Size Tested 800mm x 1600	0.23	1.31
Sol-R Gain 180	32	1 2	N	CW-PG65-C Size Tested 800mm x 1600	0.27	1.53
Sol-R Shield	26	1	N/NC	CW-PG65-C Size Tested 800mm x 1600	0.26	1.48
Triple Sol-R Gain 1 Low-E	31	1 2	N/NC	CW-PG65-C Size Tested 800mm x 1600	0.25	1.42
Triple Sol-R Gain 1 Low-E	34	1 2 3	N/NC	CW-PG65-C Size Tested 800mm x 1600	0.22	1.25
