Job Title: Union Pipe Layer – Experienced with Leadership Skills

Location: Minnesota, Various Project Sites

Company: Quad E Companies, Inc

Job Summary:

We are seeking an experienced and motivated Union Pipe Layer with strong leadership abilities to join our team in Minnesota. The ideal candidate will have a solid background in underground utility installation, a deep understanding of industry standards, and the ability to be a crew lead to ensure projects are completed safely, efficiently, and on time.

Key Responsibilities:

- **Pipe Installation:** Install, align, and secure various types of pipes, including water, sewer, and storm drainage systems, according to project specifications and blueprints.
- **Site Preparation:** Ensure proper grading, trenching, and bedding to meet project requirements.
- **Supervision & Leadership:** Lead and mentor crew members, ensuring adherence to safety protocols and project timelines.
- **Quality Control:** Inspect installed pipes for proper alignment, grade, and sealing to prevent leaks or structural issues.
- **Problem Solving:** Identify and address potential problems or conflicts in the field and collaborate with site supervisors to develop effective solutions.
- **Safety Compliance:** Promote and enforce a culture of safety, ensuring compliance with OSHA standards and company policies.
- **Communication:** Maintain clear and effective communication with project managers, inspectors, and other trades to ensure smooth project execution.

Qualifications:

- 563 Union Membership or desire to enter Union
- **Experience:** Minimum of 2 years of experience in underground utility installation

Quad E Companies, Inc is an affirmative action, equal opportunity employer.

- **Certifications:** Pipe Layer Card Holder with knowledge of Minnesota state and local regulations regarding underground utility work. OSHA 10/30 certification preferred, along with any relevant safety or technical training.
- **Technical Skills:** Ability to read and interpret blueprints, project plans, and specifications.
- **Equipment Proficiency:** Experience operating and working around excavation equipment, trench boxes, and tools used in pipe laying.
- **Leadership Abilities:** Proven ability to manage and lead a team effectively, promoting collaboration and productivity.
- **Physical Requirements:** Ability to work outdoors in varying weather conditions, lift heavy materials, and perform strenuous physical tasks.

Compensation & Benefits:

- Competitive union wages and benefits per the applicable collective bargaining agreement.
- Ongoing training and development.

How to Apply:

Interested candidates should submit a resume to Office@QuadECompanies.com or submit through our website at QuadECompanies.com
