

RAC-2X 2U Fiber Optic Rack Mount Enclosure

A 2U style fiber rack mount enclosure is designed to help manage and organize fiber in dense applications. This enclosure is compatible with LGX or CCH style fiber panels (can also be converted for modules) and can house up to 144 fibers.

Made from cold rolled steel these enclosures are sturdy, help protect fiber components and provide a way to organize/manage and protect fiber cables. Available in a fixed bulkhead option, as well as, a sliding tray configuration.

*The slide tray variation allows for easier access for the input and management of panels and fiber.

- Powder coated black texture is standard, other colors available on request
- Accessory Pack and ID Card included
