

Bed Bug Treatment Checklist

Remove all bedding EXCEPT the bottom sheet and seal in plastic trash bags.

Birds, dogs, cats, and other pets should be taken to another location until after the treatments have had time to dry

Aquariums should have the pump disconnected and top covered by a damp towel

Stay out of the space for 4 hours to let treatment dry. You may see bed bugs crawling after treatment, they are dying. Remember to vacuum daily till your next appointment, Empty vacuum contents in to a sealed bag and dispose in outside receptable.
