ABOUT US

In 1966, Dr. John Abbuhl, a local pediatrician in the Capital Region, began planting trees and shrubs around his 22 acre property to create an attractive setting. His love for nature and trees is felt as you explore over 3 miles of trails, 11 ponds, and all the unique specimens the arboretum has to offer.

Established as a non-profit in 2007, the Pine Hollow Arboretum (PHA) is home to 3,600 unique catalogued species, creating Albany County's only Arboretum and "Living Library".

The Pine Hollow Arboretum offers environmental education opportunities and year-round nature related activities for all ages. Our property is protected under a conservation easement and our goal is to provide all visitors a peaceful and educational experience, no matter what season.

We invite you to join in the Arboretum's mission to preserve, manage, and enhance our horticultural collection so this space can be used by all looking to connect with nature.

TRIBUTE GIFTS

The Pine Hollow Arboretum values honoring, remembering, and celebrating people and their accomplishments. We are pleased to offer this beautiful and unique setting for tribute gifts. With guidance from our Horticulturalist and Collection Curator, we are able to offer a selection of trees and plants from our existing collection and benches that are available for dedication purposes.

Due to our limited size and priority of keeping our grounds pristine and natural, tree and bench dedication is very limited.

We invite families and groups who have a tree, plant or bench dedication in the Pine Hollow Arboretum to always feel welcome and to visit the gift anytime you please. You are welcome to walk the grounds with us and find the tribute gift that works best for you and your group.

For term lengths that are \$10,000 or higher the Pine Hollow Arboretum is happy to help you coordinate a gathering in Magnolia Field, free of charge. This would include folding chair and table set-up for up to 40 guests as well as a tour. We look forward to expanding this offering as the Pine Hollow Arboretum develops and our Visitor Center opens.
