

S.E.A.™ Simplified Enterprise Architecture Proof of Value

healthFIT is Frazier Information Technologies exclusive program that employs the Simplified Enterprise Architecture (S.E.A.™) methodology, ServiceNow modules and the designer tool, to visually present and help transform from the current ‘chaotic’ representations to an ideal unified view of an enterprise’s IT ecosystem.

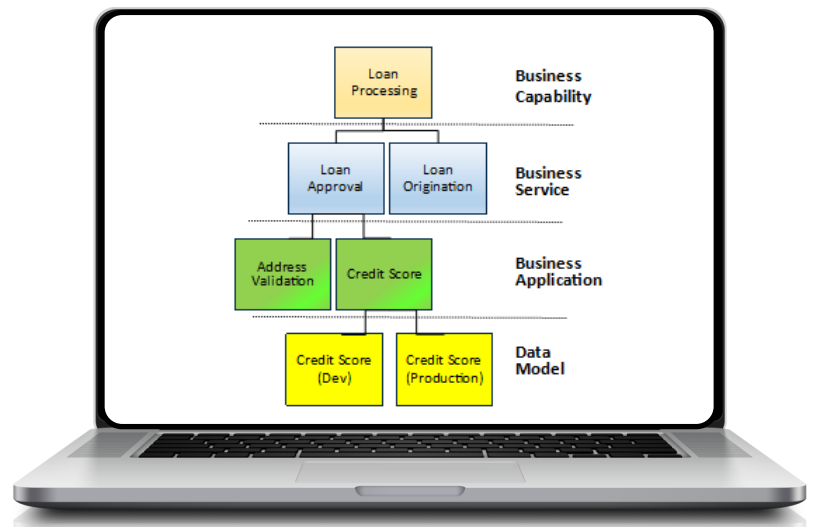

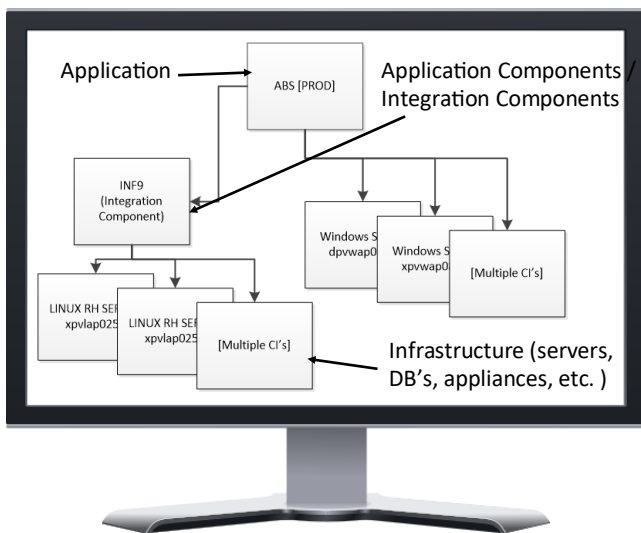

HealthFit

Current CMDB Taxonomy

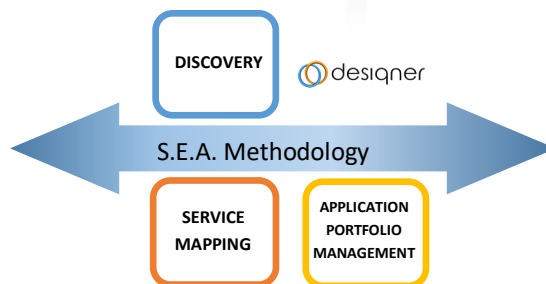

- Visual representation of current ‘chaotic’ IT ecosystem

Simplified Enterprise Architecture (S.E.A.™)

- Visual presentation of the Ideal ‘to-be’ unified CMDB Taxonomy State

ServiceNow modules and DESIGNER are used to capture and visually present the current ‘chaotic’ state of the IT ecosystem.

By employing the The S.E.A.™ Methodology, ServiceNow modules and DESIGNER can present the ideal ‘to-be’ unified view.

The cost for healthFIT is \$50,000 US. This price includes a 30-day trial of ins-pi designer and 320 hours of Fortuneminds professional services to completely format one of more enterprise applications into the S.E.A.™ framework architecture view.
