CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

To the City Council
City of Bremond, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate, discretely presented component units of the City of Bremond, Texas, as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the city's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, of the City of Bremond, Texas, as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 16 to the financial statements, in 2018, the City adopted new accounting guidance, *GASBS No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* ([link](#)). Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-7 and 35-36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Donald L. Allman, CPA, PC

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of the City of Bremond, Texas, discuss and analyze the City's financial performance for the year ended September 30, 2018. Please read it in conjunction with the independent auditors' report and the City's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

- The city's net position was \$1,201,684 for the governmental activities and \$1,502,777 for business-type activities at September 30, 2018.
- The General Fund had an increase in net position of \$142,503.
- The Proprietary Fund had a decrease in net position of \$(122,088).
- The General Fund on the governmental funds basis had a decrease in net position of \$(33,585) due to capital expenditures from grant funds.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of the City as a whole and present a longer-term view of the city's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the City's operations in more detail than the government-wide statements by providing information about the city's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the budget. The fiduciary statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the district.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The required Supplementary Information section contains financial information and disclosures required by the Governmental Accounting Standards Board (GASB), but are not considered a part of the basic financial statements. The section labeled Other Supplementary Information contains data used by monitoring or regulatory agencies for assurance that the City is using funds supplied in compliance with the terms of grants.

REPORTING THE CITY AS A WHOLE

The Statement of Net Position and the Statement of Activities

The analysis of the City's overall financial condition and operations primary purpose is to show whether the City is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the City's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the City's operations during the year. These apply the accrual basis of accounting, which is the basis used by private sector companies. This means all of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

All of the current year's revenues are taken into account regardless of when cash is received or paid. The City's revenues are divided into those provided by outside parties who pay for the costs of some programs (such as utility funds) and grants provided by the outside parties and agencies (program revenues), and revenues provided by the taxpayers or other unrestricted sources (general revenues). All of the City's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the City's net position and changes in them. The City's net position (the difference between assets and liabilities) provide one measure of the City's financial health or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the City, however, you should consider nonfinancial factors such as changes in the City's property tax base and the condition of the City's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the City into three kinds of activities.

Governmental Activities-Most of the City's basic services are reported here, including the transportation, maintenance, community services, and general administration. Property taxes, fees, and state and federal grants finance most of these activities.

Business-type Activities – The City charges a fee to “customers” to help it cover all or most of the cost of services it provides in the Revenue Fund.

Business-type Activities – The City charges a fee to “customers” to help it cover all or most of the cost of services it provides in the Revenue Fund.

Component Units – The City includes two separate legal entities in its report – the Economic Development Corporation (4A) and the Infrastructure/Improvement Corporation (4B). Although legally separate, these “component units” are important because the City is financially accountable for them.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the City as a whole. Laws and contracts require the City to establish some funds, such as grants received from a governmental agency. The city's administration may establish other funds to help it control and manage money for particular purposes. The City's two kinds of funds – governmental and proprietary – use different accounting approaches.

Governmental Funds – Most of the City's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the city's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

Proprietary Funds – The City reports the activities for which it charges users in proprietary funds using the same accounting method employed in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government wide statements but containing more detail and additional information, such as cash flows.

THE CITY AS TRUSTEE

Reporting the City's Fiduciary's Responsibilities

The City is the trustee, or fiduciary, for money of the Firemen's Pension Trust fund. All of the City's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these resources from the City's other financial statements because the City cannot use these assets to finance its operations. The City is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City's assets exceeded liabilities by \$ 2,704,461 at the close of the most recent fiscal year.

Governmental activities net position increased by \$ 142,503 during the current year.

Business-type activities net position decreased by \$(122,088) during the current year.

City of Bremond, Texas
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Year Ended September 30, 2017

Net change in fund balances - total governmental funds: \$ (33,585)

Amounts reported for governmental activities in the statement of activities are different because:

Total Pension expense is not recognized in Governmental Funds (21,276)

Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increase in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2017 capital outlays and debt principal payments is to increase (decrease) net position. 235,862

Difference in property tax revenue for governmental funds (5,058)

Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position. (33,440)

Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transfers, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position. -

City of Bremond, Texas
Notes to Financial Statements
For the Year Ended September 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

City of Bremond, Texas (the “City”) is a municipal corporation under the applicable laws and regulations of the State of Texas. The City was incorporated and operates under an elected Mayor/Council from government. The City’s major operations include highway and streets, sanitation, public improvements, planning and zoning and general administrative services.

The financial statements of the City of Bremond, Texas are prepared in accordance with generally accepted accounting principles (GAAP). The City’s reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

A. REPORTING ENTITY

Generally accepted accounting principles require that these financial statements present the city of Bremond, Texas (the primary government) and its component units. The component unit discussed below is included in the City’s reporting entity because of its financial relationship with the City and the City’s ability to appoint its directors.

The component unit is presented using the discrete method. Its financial data is presented in a separate column as a government type fund because it is legally separate from the City.

Component Units

City of Bremond Economic Development Corporation (4A) was formed in 2001 pursuant to the Development Corporation Act of 1979, governed by Section 4A of the Act. It receives and utilizes the proceeds of a one-half cent sales tax to promote and assist in the economic development of the City of Bremond, which is then split in half with the street maintenance account. Directors are appointed and removable by the City Council of the City of Bremond. Three directors shall be members who are not employees or officers of the City, nor members of the City Council.

City of Bremond Infrastructure/Improvement Corporation (4B) was formed in 2001 pursuant to the Development Corporation Act of 1979, governed by Section 4B of the Act. It receives and utilizes the proceeds of a one-half cent sales tax to promote and assist in the economic development of the City of Bremond. Directors are appointed and removable by the City Council of the City of Bremond. Three directors shall be members who are not employees or officers of the City, nor members of the City Council.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the City of Bremond, Texas and its component units nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes. State foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 31, 2018
(Continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

The Statement of Activities demonstrates how other people or entities that participate in programs the City operates have shared in the payment of the direct costs. The “charges for services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the City. The “grants and contributions” columns include amounts paid by organizations outside the City to help meet the operational or capital requirements of a given function. If a revenue is not a program revenue, it is a general revenue used to support all of the City’s functions. Taxes are always general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due froms on the Governmental/Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds are eliminated on the government-wide financial statements. Interfund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as interfund transfers. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories- governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for City operations, they are not included in the government-wide statements. The City considers some governmental and enterprise funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund’s principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are nonoperating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are include on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The City considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the “susceptible to accrual” concept, that is, when they are both measurable and available. The City considers them “available” if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the City to refund to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The City applies all GASB pronouncements as well as the Financial Accounting Standards Council pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The City reports the following major governmental funds:

General Fund – The general fund is the City’s primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

The City reports the following major enterprise fund:

Revenue Fund – accounts for the operating activities of the City’s water and sewer services.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For Year Ended September 30, 2018
(continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. FUND ACCOUNTING (cont.)

Additionally, the City reports the following fund type(s):

Governmental Funds:

Special Revenue Funds – The City accounts for resources restricted to, or designated for, specific purposes by the City or a grantor in a special revenue fund. Most federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods. The City has two special revenue funds; Municipal Technology Fund and the Building Security Fund.

Debt Service Funds – The City accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund. The City has no debt service funds.

Capital Projects Funds – The proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted in a capital projects fund. The City has no capital projects funds.

Permanent Funds – The City accounts for donations for which the donor has stipulated that the principal may not be expended and where the income may only be used for purposes that support the City's programs. The City has not permanent funds.

Proprietary Funds:

Enterprise Funds – The City's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund. The City has not non-major enterprise funds.

Internal Service Funds – Revenues and expenses related to services provided to organizations inside the City on a cost reimbursement basis are accounted for in an internal service fund. The City has not internal service funds.

Fiduciary Funds:

Private Purpose Trust Funds – The City accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the City. The City has no private purpose trust funds.

Pension Trust Funds – These funds are used to account for local pension and other employee benefit funds that are provided by the City in lieu of or in addition to the Texas Municipal Retirement System. The City's pension trust fund is firemen's trust fund.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. FUND ACCOUNTING (cont.)

Investment Trust Fund – This fund is one in which the City holds assets in trust for other entities participating in an investment program managed by the City. The City has no investment trust fund.

Agency Funds – The City accounts for resources held for others in a custodial capacity in agency funds. The City has no agency funds.

E. NATURE AND PURPOSE OF CLASSIFICATION OF FUND EQUITY

The fund balance classifications for governmental Funds are:

Nonspendable- Includes fund balance amounts that cannot be spent because they are either not in spendable form or, for legal or contractual reasons, must be kept intact.

Restricted – Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, or amounts restricted due to constitutional provisions now enabling legislation.

Committed – Includes fund balance amounts that are self-imposed by the City to be used for a specific purpose.

Unassigned – Includes the residual positive fund balance within the general fund which has not been classified within the above mentioned categories.

F. GOVERNMENT-WIDE AND PROPRIETARY FUND NET POSITION

Net investment in capital assets – Consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.

Restricted net position – consist of assets that are restricted by the City’s creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors (including those who have donated to the City’s parks endowment less related liabilities and deferred inflows or resources).

Unrestricted – all other net position is reported in this category.

G. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows for proprietary funds, the City considers highly liquid investments to be cash equivalents if they have a maturity of three years or less when purchased.
2. The City reports purchase of supplies as expenditures. If any supplies are on hand at the end of the year, their total cost is recorded as inventory, and the expenditure is reduced. There was no inventory at year end.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

G. OTHER ACCOUNTING POLICIES (cont.)

3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

4. Employees of the City are entitled to vacation and sick leave based on category/class of employment. Vacation and sick leave are to be taken within the same year they are earned, and any unused days at the end of the year are forfeited. Therefore, no liability has been accrued in the accompanying general purpose financial statements.
5. Capital assets which include land buildings, furniture and equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the City are depreciated using the straight line method over the following estimated useful lives.

Assets	Years
Buildings	5-40
Building Improvements	5-20
Infrastructure	40
Machinery and Equipment	3-7
Furniture and Fixtures	3-7
Computer Equipment	3-5

6. The City provides health insurance coverage for its full-time employees through Texas Municipal League. The City pays for 100% of premium for individual coverage. Additional coverage for dependents are paid in full by employees.
7. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE II – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Page 11 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds.

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Page 13 provides a reconciliation of the governmental funds balance sheet to the statement of net position. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balances and the change in net position.

NOTE III – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Council adopts an “appropriated budget” for the General Fund and Revenue Fund. The City is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The City compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears on Page 32 and the other report is on Page 33.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements.

1. Prior to September 20, the City prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Council is then called for the purpose of adopting the proposed budget. At least ten days’ public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Council. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Council. Amendments are presented to the Council at its regular meetings. Each amendment must have Council approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Council, and are not made after fiscal year end. The City had no budget amendments during the year. All budget appropriations lapse at year end.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE IV – DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

The funds of the City must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the City's agent bank in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. As of September 30, 2018, the City had a signed depository contract with First Star Bank of Bremond, the City's depository bank.

At September 30, 2018, the carrying amount of the City's deposits (cash, certificates of deposits and interest-bearing savings accounts included in temporary investments) was \$913,319 and the bank balance was \$954,090. The City's cash deposits at September 30, 2018 and during the year ended September 30, 2018 were entirely covered by the FDIC Insurance or by pledged collateral held by the City's agent bank in the City's name.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices management reports and establishment of appropriate policies. Amount other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings account, (5) repurchase agreements, (6) banker acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the act. The City is in substantial compliance with requirements of the Act and with local policies.

Both cash deposits and investments held at a financial institution can be categorized according to three levels of risk. These three levels of risk are:

Category 1 - Cash or investments that are insured, registered or held by the City or by its agent in the City's name.

Category 2 - Cash or Investments that are uninsured and unregistered held by the counter-party's trust department or agent in the City's name.

Category 3 – Uninsured and unregistered investments held by the counterparty, its trust department, or its agent, but not in the City's name.

Based on these three levels of risk, all of the City's investments are classified as Category 1.

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

NOTE IV – DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

The City’s investments at September 30, 2018 are shown below:

Name	Carrying Amount	Market Value	Category
Certificates of Deposit	\$235,941	\$ 235,941	1

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the City in conformity with Subtitle E, Texas Property Tax Code. Property taxes become a lien on the first day of the levy year and may be paid in two equal installments. The first installment is due on or before January 31 and the second installment, which bears interest at the State mandated rate, is due on, or before June 30. Accounts not paid as of July 1 are considered to be past due. Property tax revenues are considered available when they become due or past due and receivable within the current period.

The rate for the 2018 tax roll was .54902 per \$100 on 100% of market value. The assessed value was \$26,749,117. The tax office collected 94.00% of the current roll or \$146,858. Current property taxes receivable are \$8,993 and delinquent property taxes receivable are \$13,949.

C. DELINQUENT TAXES RECEIVABLE

Allowances for uncollectible tax receivables within the General Fund are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas legislature.

D. CAPITAL ASSET ACTIVITY

Capital asset activity for the City for the year ended September 30, 2018, was as follows:

	Capital Assets, Not Depreciated		Capital Assets Depreciated		Total
	Land	Construction In Progress	Buildings & Improvement	Machinery & Equipment	
Primary Government					
Governmental Activities:

E. DEFINED BENEFIT PENSION PLANS

1. Plan Description

The City participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member board of Trustees. Although the Governor, with the advice and consent of the senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmr.com.

All eligible employees of the City are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TRMS.

At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employee-financial monetary credits with interest were used to purchase to annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 yearly payments, which cannot exceed 75% of the member's deposits and interest.

Employees covered by benefit terms

At the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms.

Inactive employees or beneficiaries currently receiving benefits	1
Inactive employees entitled to but not yet receiving benefits	9
Active employees	<u>7</u>
Total	17

3. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 13.67 and 14.59 for 2017 and 2016, respectively. The City's contributions to TMRS for the year ended September 30, 2018 were 41,239 and were equal to the required contributions.

4. Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2017, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions.

Inflation	2.5% per year
Overall payroll growth	3.5% per year
Investment Rate of Return	6.75% net of pension plan investment expense, including inflation

CITY OF BREMOND, TEXAS
Notes to Financial Statements
For The Year Ended September 30, 2018
(continued)

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. For cities with fewer than twenty employees, more conservative methods and assumptions are used. First, lower termination rates are used for smaller cities, with maximum multipliers of 75% for employers with less than 6 members, 85% for employers with 6 to 10 members, and 100% for employers with 11 to 15 members. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-district RP2000 Disabled Retire Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2010 through December 31, 2014, first used in the December 31, 2016 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2017 valuation.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.50%	4.80%
International Equity	17.50%	6.05%
Core Fixed Income	30.00%	1.50%
Non-Core Fixed Inc	10.00%	3.50%
Real Return	5.00%	1.75%
Real Estate	10.00%	5.25%
Absolute Return	5.00%	4.23%
Private Equity	5.00%	8.50%
Total	<u>100.00%</u>	

Discount Rate

The discount rate used to measure the total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

(continued)

E. DEFINED BENEFIT PENSION PLANS

Net Other Post Employment Benefits Liability.
 Actuarial Assumptions

Actuarial assumptions were developed from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 to December 31, 2014. These assumptions were adopted in 2015 and first used in the December 31, 2015 valuation.

All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.

The Mortality Experience Investigation Study covering 2009 through 2011 is used as the basis for the post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs). Mortality Rates for service employees uses the RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis with scale BB to account for future mortality improvements subject to the 3% floor.

Inflation	2.50% per year
Overall payroll growth	3.50 to 10.5% per year including inflation
Discount rate	3.31%

Changes in the Net Other Post Employment Benefits Liability

	Increase (Decrease) Total OPEB Liability
Balance at 12/31/16	\$ 23,681
Changes for the year	
Service Cost	564
Interest on Total OPEB liability	897
Changes of benefit terms	0
Differences between expected and actual experience	0
Changes in assumption or other inputs	2,231
Benefit payments	<u>(487)</u>
Net changes	3,205
Total OPEB Liability – end of year	\$ 26,886

Total OPEB Liability as a Percentage of Covered Payroll 10.49%

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the current discount rate of 3.31% as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.31%) or -1 percentage point higher (4.31%) than the current rate. Because the SDBF is considered an unfunded trust, the relevant discount rate to calculate the total OPEB liability is based on the Fidelity Index's 20 year Municipal GO AA Index.

	1% Decrease in Discount Rate (2.31%)	1% Increase in Discount Rate (3.31%)	Discount Rate (4.31%)
Total OPEB liability	\$32,837	\$26,886	\$22,454

Note E. Other post-employment benefits

**SCHEDULE OF OUTFLOWS AND INFLOWS - OPEB CURRENT AND FUTURE EXPENSE
SEPTEMBER 30, 2018**

	Recognition Period (or amortization yrs)	Total (Inflow) or Outflow of Resources	2017 Recognized in current pension expense	Deferred (Inflow) Outflow in future expense
<u>Due to Liabilities:</u>				
Difference in expected and actual experience [actuarial (gains) or losses]	5.2700	\$ -	\$ -	\$ -
Difference in assumption changes [actuarial (gains) or losses]	5.2700	\$ 2,231	\$ 423	\$ 1,808
			<u>\$ 423</u>	<u>\$ 1,808</u>
<hr/>				
Contributions made subsequent to measurement date		city to provide	city to provide	city to provide
			<u> </u>	<u> </u>
			<u> </u>	
<u>Total:</u>				<u>\$ 1,808</u>

Deferred Outflows and Deferred Inflows of Resources, by year, to be recognized in future pension expense as follows:

	Net deferred outflows (inflows) of resources
2018	<u>\$ 423</u>
2019	423
2020	423
2021	423
2022	116
Thereafter	<u>-</u>
Total	\$ 1,808

Due to the SDBF being considered an unfunded OPEB plan, benefit payments are treated as being equal to the employer's yearly contributions for retirees. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits. In order to determine the retiree portion of the City's Supplemental Death Benefit Plan contributions (that which is considered OPEB), the City should perform the following calculation:

Total covered payroll * retiree Portion of SDB Contribution (Rate)

F. SUBSEQUENT EVENTS

The date through which subsequent events have been evaluated is July 17, 2019, the date the financials were available to be issued.

CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL, OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council
City of Bremond, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, of the City of Bremond, Texas, as of and for the year of September 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Bremond, Texas’s basic financial statements, and have issued our report thereon dated July 17, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Bremond, Texas’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Bremond, Texas’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Bremond, Texas’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Bremond, Texas’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on its compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
