

# JAMAICA

*Travel Updates by Jones Global Travel Vol. 2*

## Club MOBAY

### 1. BOOK CLUB MOBAY

- *This takes all of the guess work out as you are escorted through the process and it may save you time getting through immigration and customs inbound to Jamaica. On Departure, It expedites you through the security line and provides a very comfortable area for you to relax before your flight home.*

### 2. FIRST DAY

- *...take it easy. Walk around the resort and get familiar with restaurants, bars, and pools with the help of the map provided at check-in. Allow yourself a day to get over the long airport waits, the possible culture shock, and the sleepless hours. You'll wake up the next day refreshed and ready for adventure.*

### 3. KEEP AN OPEN MIND

- *Navigating new environments can be a little stressful, but if you are willing to see it as a learning experience and roll with it, you'll mitigate the stress and open yourself up to tons of joyful experiences.*

## 4. DINING RESERVATIONS

- *Verify reservation and dress code requirements with guest services so you can eat and try as many as your heart desires.*

## 5. DOLLARS

- *Make sure to have single dollar bills to tip those that provide great service (where allowed).*

## 6. SEE THE SUNRISE

- *At least one day, wake up early to see a sunrise. You will be so glad you did. The beauty of it will stay with you forever.*

## 7. MAKE FRIENDS

- *People are there just like you and are mostly happy to find other people with the same interest to do tours or visit the city together, etc.*

## 8. STAY HYDRATED

- *With unlimited alcohol consumption, the warm weather, and the amount of food that your body is not used to processing, I recommend that you drink LOTS of filtered water, or maybe a glass of water after every couple of cocktails. Aim for two liters a day to avoid feeling nauseous, headache-y, and exhausted – this will help to keep you feeling great.*

## 9. RESPECT THE 3 OZ RULE

- *To avoid wasting money on things airport security will throw away. This includes toothpaste.*

## 10. HAVE FUN!

- *This is most important. Let your packing get you excited for all the adventures awaiting you!*
