

Candle Flame Divination

When you light a candle for magick you have an opportunity to divine the meaning of the candle flame, wax and smoke.

FLAME SMALL & WEAK – Obstacles are preventing the outcome that you expect.

FLAME DANCES, BOUNCES or has a **HIGH SPIRAL FLAME** – The situation is volatile, may or may not be a good situation depending on your point of view.

FLAME IS ODDLY COLORED – Check magickal correspondences of colors for the meaning

FLAME FLARES UP AND DIES DOWN REPEATEDLY OR FLAME GUTTERS – The magick is working intermittently, something is causing the flow of energy to short circuit

FLAME HISSES SIZZLES OR POPS – Spirits are trying to communicate with you, pay attention

TWO FLAMES ON ONE WICK – A union or a reunion will happen

FLICKERING FLAME – You are not committed to the magickal outcome of the spell

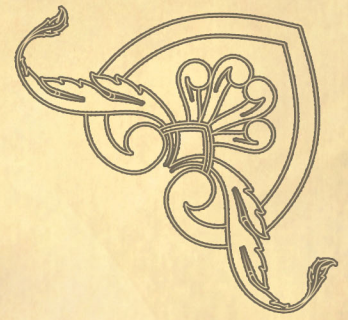

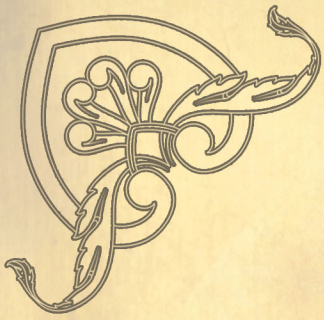

CANDLE SMOKES THEN BURNS CLEANLY – An omen that the spell will not go well in the beginning, but will work out in the end

CANDLE SPARKS – Guests are coming

ONE DROP OF WAX RUNNING DOWN CANDLE – New information is available, meditate for the answer

ONE DROP OF WAX FLIES OFF THE CANDLE – You have been given a present from fate – can be either good or bad

CANDLE HARD TO LIGHT – There are outside influences interfering with the magick

CANDLE LIGHTS EASILY & BURNS STEADILY – Magick will work quickly

CANDLE BURNS FAST – A good sign, magick is eager to work

CANDLE BURNS SLOWLY OR WON'T GO OUT – The situation is more difficult than expected, magick is stalled or will work very slowly

CANDLE GOES OUT UNEXPECTEDLY – Magick will not manifest, spell has been denied, re-think your goal

CANDLE TIPS OVER OR FLARES UP – A very bad sign, the spell will fail and there may be danger ahead

CANDLE MELTS WHILE BURNING –

- If the wax melts onto the spell ingredients, (herbs, stones, charms etc.) it means the magick is eager to work
- If the wax melts into a puddle that looks like something (cat, star, etc.) the shape can be used to divine the outcome

WHEN BURNING TWO OR MORE CANDLES –

- The one with the highest flame has the most magickal power
- If the candles are named for two people and the flame of one leans towards the other, it means that the leaning flame candle is attracted to the other person.
- If the candles are named for two people and the flame of one leans away from the other, it means that the leaning away flame candle is not attracted to the other person
- If one candle burns out before the other it means that it is the most affected by the magick spell

SOOT ON GLASS CANDLE HOLDER – A bad omen, something thinks badly of you, your magick spell will fail
