How to Write a Successful Petition Paper

Writing a Petition For Candle magic has been done since the beginning. Written word is just as powerful as spoken word. Writing words keeps them alive when we are not speaking out loud or in public, so words are written down to manifest our intentions and requests. They are written on trees, sand, fancy talismans with magical purposes, or just plain paper. You can use any writing utensil that is at your disposal. And there is a whole story of magical inks, but that is in fact another story.

These petition papers can be burned after the spell, put into a jar full of intended herbs and substances or carried around in a wallet, pocket or shoes. Whichever works for you the goal is to obtain what is written on it. These instruction will teach you how to write your own petition:

- Materials-**
- Paper (plain, parchment, or brown paper bag material)
 - Pen, pencil, marker, etc
 - Oil, (optional), oil that works for your intention

1. Write the name of the target 3, 6, Or 9 times Horizontal in the middle going downwards
2. Turn the paper 90° to the right
3. Write your name over your target 3, 6, or 9 times Horizontally in the middle of the paper upwards (when you spin it, YOUR NAME should look vertical.)
4. Write your desired outcome in a circle, around the names.
5. Anoint paper on all four corners, and one dab in the middle on the names.
6. Place the petition under candle either upward, or downward and leave there until the entire spell is complete.
7. If this is not meant to be burned, but carried, fold the paper TOWARDS you to BRING in and AWAY from you if you want to RID things from you.

Good Luck Lovies!!
