WHY CHOOSE A C&AT COBOT SOLUTION?

Using Fanuc's platform, we develop your custom solution

- Enhanced safety features - Using various motion sensors, light curtains, radar.
- Customized layout requirement - based on space limitations, rate, and budget.
- Selection of End Of Arm Tool (EOAT)
 - Product dependent: vacuum, clamp, single pick or multi-pick as well as multi-tool couplers.
- Standard or customized conveyance of your product - powered roller/ belt/ bin.
- Single or multi pallet stations.
- Options for mobile or static solutions are available.
