

WE'RE HIRING!

Musical Director

➤ About Us

The Groove Chorus is a collection of choirs in central London & Manchester that challenges the norm of what it means to sing in a choir. We're aimed at singers who have either studied music, had active singing lessons, but maybe let life get in the way whilst moving into adulthood. We're not a professional choir, but we make a professional sound.

We sing queer dance classics with a disco twist. Our gigs feature an epic 9-piece pro live band. We now have four choirs in London & one in Manchester and we're always looking out for our next location to head to!

➤ About the Role

This role will suit someone who has a love for pop culture and dance music. We're looking for a fantastic musician with high standards that can create a rehearsal environment that pushes singers to achieve the best possible sound whilst maintaining a culture of fun and silliness.

We provide our MD's scores & recordings of each arrangement one week in advance. We do not provide piano scores & expect our directors to have fantastic piano improvisation skills.

This is not a short term role, we want someone who will become a crucial part of a wonderful community of people.
