

# 2026 Kentucky Cybersecurity and Forensics Conference (KCFC2026)

**Date:** October 30th, 2026    **Time:** 8 am - 4:30 pm

**Location:** KY State University, Frankfort, KY

**Website:** [www.ky-cfc.com](http://www.ky-cfc.com)

*“Building Cyber Resilience Through Collaboration — Academia, Industry, and Government”*

The **Kentucky Cybersecurity and Forensics Conference (KCFC) 2026** cordially invites scholars, industry leaders, practitioners, students, and government representatives to participate in a premier colloquium dedicated to cybersecurity and digital forensics. In an era defined by unprecedented growth in digital data and increasingly sophisticated cyber threats, KCFC 2026 provides a distinguished forum for the exchange of research findings, best practices, and innovative strategies that address the challenges shaping today’s cyber landscape.

## General Topics of Interest

- Cybersecurity and Digital Forensics
- Network, System, and Application Security
- Cyber Threat Intelligence and Incident Response
- Artificial Intelligence and Machine Learning in Cybersecurity
- Adversarial Attacks, Data Poisoning, and Model Security
- Cloud, Edge, and Distributed Systems Security
- Internet of Things (IoT) and Embedded Systems Security
- Secure Software Development and Vulnerability Analysis
- Privacy, Data Protection, and Ethical Considerations
- Digital Crime, Cyber Law, and Policy
- Critical Infrastructure and Industrial Control Systems Security
- Cybersecurity Education, Workforce Development, and Training
- Emerging Technologies and Future Cyber Challenges

KCFC 2026 encourages participation from established experts and emerging scholars alike, providing a platform for scholarly exchange, professional development, and meaningful collaboration. We invite all stakeholders committed to strengthening cybersecurity awareness and resilience to join us in shaping solutions for the challenges of the digital future
