Pool Upgrade waiting for large commercial sand filter that was special ordered to arrive. We were told that due to the large size and being a commercial grade filter mfg. does not keep in stock, they are built upon order being placed which normally takes six to eight weeks. Once the upgrade is completed we should have a very nice pool for quite some time. Sorry for delay in normal opening time. We just want to do it do it right this time so that pool will stay crystal clear and be an enjoyment for everyone. According to mfg filter should arrive by the middle of this month.
