Protect our Fairways during the Heat

Please observe the 90 degree rule especially during this hot weather. Drive down the sides and then 90 degrees out to your ball. After hitting go back to the sides to green. This will help preserve our very nice fairways.

IMPORTANT NOTICE- - - PLEASE READ

Paying your monthly bill IN FULL in the same month that you receive your monthly statement is very important to the Club. In order to pay the Club's bills each month we must have the funds available. The expenses, especially during the summer months, to maintain the swimming pool, new slide, lifeguards, etc and the cost to maintain the golf course such as fuel, fertilizers, chemicals, labor, watering sprinkler system, electricity, insurance, equipment maintenance, etc. has to be paid on time. If our monthly receipts from our members don't come in on time that creates a problem to pay our vendors on time. We appreciate each of our members and hope you understand the situation.

Beginning with September's monthly billing all accounts that are not paid in full from previous month will be charged a 1.5% finance charge on balance owed. Also past due accounts will have charging privilege in Pro Shop discontinued until account is current.
