To All Members of LaSalle Golf and Country Club:

As you know, the Board of Directors determined last winter that we could no longer maintain our swimming pool by touch ups and patching. Major renovations were required, planned and implemented in the early Spring. As the work began and with the input and advice of swimming pool professionals, we learned that the improvements we had planned would probably be inadequate in the long run. In order to provide a sanitary environment and to maintain excellent water quality it was necessary to expand the size of the underground piping, upgrade to commercial level equipment and increase the capacity of both the pump and the sand filter. With many of our members volunteering their time to perform the manual labor, the work was completed and the results were beyond our expectations. If you have not enjoyed our new, upgraded facility we invite you to do so before summer ends. Unfortunately, with progress and improvements there is always a price. The purchase and installation of the commercial grade equipment cost almost twice as much as our original estimate. In order to pay the additional cost it is necessary for the Board of Directors to come to you with an additional assessment of \$100.00 which will be reflected on your current bill. We do understand that this comes at a difficult time, with many of you incurring back to school expense for your children, so if it is easier for you to spread the assessment over a four month period please feel free to do so. For those that are on Auto Pay by bank transfer or credit card and do not want the \$100.00 automatically withdrawn from your account please call 992-6938 (bus office), 992-4283 (Pro Shop) or email to cnjena@gmail.com and let us know what amounts you want transferred from your account each month for the assessment. If we do not hear from you by the 5th of the month we will assume that we can transfer the \$100.00 from your account.

We do appreciate and thank you for your understanding.
