Lots of maternal power in this gentle bull's pedigree. He is an above average performer off the cow and on grass. He is probably safe to use on heifers, even though he had an 82 pound actual birth weight. He is a pet that wants his head scratched when he meets you at the gate. The tips of his ears froze off when he was born.

This is a standout growth bull by Dateline. He recorded a 107 weaning Weight per Day of Age ratio, a 3.12 Average Daily Gain on feed (compared to a 2 pound average), and was the heaviest bull on yearling weight day, at 1,020 pounds. He was among the biggest on August 29th, too, at 1,280 pounds. He is recommended for customers who sell calves by the pound.
