Purchase these commercial females backed by nearly four decades of investing in the best bulls possible.

We will offer the heifers in two separate groups, giving buyers the opportunity to select the cattle that best fits their operation:

51 Fall-Calving Heifer Pairs

Two-year-old, solid black commercial heifers weigh approximately 1,150 pounds. Calves began arriving August 22, 2026, and are sired by Tower Hills Ranch registered bulls. This is an excellent opportunity to add productive young pairs with proven genetics and immediate value. *Minimum bid $4,800*

70 Spring-Bred Commercial Heifers

Weighing approximately 1,050 pounds and due to begin calving March 15, 2027. These heifers are bred to our best Tower Hills Ranch registered low-birth-weight bulls, offering buyers a strong opportunity to add uniform, well-developed females to their spring-calving program. *Minimum bid $3,800*

Each group will sell by buyer's option. Heifers will be gate sorted, with the buyer having the option to cut. Once the buyer's purchase is complete, bidding will reopen on the remaining cattle. This process will continue until each group is sold, giving buyers multiple opportunities to participate and build the group that best suits their needs. Calves have all been tagged to their dams.

Contact Lance (208-392-8844) to preview cattle ahead of time. Bidding can be done in person or through phone on day of sale. If you cannot attend, please let us know in advance with your contatct information. We will call you when your group starts selling.
