TOWER HILLS RANCH

Welcome to Tower Hills Ranch fall 2022 private treaty kickoff!

What a crazy year so far. Rising food, feed and fuel prices, coupled with widespread drought across the plains have really reduced cow numbers and made hay hard to find. However, prices for cattle are expected to rise faster than inflation. We are offering our entire crop of 34 bulls born in the spring of 2021. We fed them a limited (2% of body weight) corn based ration for just 77 days last winter to measure their relative response to grain. Other than that they have lived off grass and cake like our commercial cattle do. They are grass hard, fertility tested, and ready to work on your cows without falling apart. You can spend twice as much on cattle that have been fluffed up on ration at other sales, but they won't hold up as good once they have to live in the real world.

This year we are offering the top end of our registered Angus and Optimizer females. 6 donor Angus cows from Schaff Angus Valley (including a full sister to Resource and Renown), plus our 10 best open Angus yearling heifers, and our 10 best open Optimizer yearling heifers.

We are also offering 20 commercial first calf heifer pairs and around 40 heifers bred for spring of 2023.

We will publish our asking prices online at TowerHillsRanch.com on September 22. You can go there to see the catalog, the videos and the prices. No animals will be sold before kickoff, but after kickoff it is strictly first come, first served. Where multiple customers have expressed an interest in a registered animal or a group of commercial females before kickoff we will call you and have a private auction. You don't have to be at the ranch to buy the cattle. We are taking \$100 off the asking price for all bulls that sell on October 6.

2022 Private Treaty Kickoff Sale

Thursday | Oct. 6, 2022 | 10:30a.m.
Tower Hills Ranch | Shidler, Oklahoma

Breeding Guarantee

All the bulls offered have passed a Breeding Soundness Exam performed by Flying Cow Genetics before kickoff. We guarantee them to be fertile for the first breeding season. If a bull fails to settle your females we will provide one of the following: 1) A satisfactory replacement, if one is available. 2) Credit on a future Tower Hills Ranch animal- equal to the purchase price less salvage value. The "first breeding season" is defined as the first three months (90 days) following the day of turn out. This is not a mortality insurance policy on your purchases. We suggest contacting an insurance representative to inquire about mortality insurance. Tower Hills Ranch will not replace an animal due to death or injury. We do ask you to contact Tower Hills Ranch immediately upon discovery of a failure to breed and within the first breeding season time frame.

Key

Bulls highlighted in yellow (and wearing yellow ear tags) are registered Optimizers registered with the Salers Association. The percentage of Salers blood is shown next to their birth date under their name on each animal. They are all mostly Angus with the percentages of Salers ranging from 25% to 50%. The bulls highlighted in blue (and wearing blue ear tags) are 100% Angus and registered with the Angus Association.

Be our Guest

Come join us at the ranch on October 6, 2022! Bulls will start selling at 10:30 a.m. on a first come first serve basis.

Bull prices will start at \$2100.00.

All cattle can be previewed ahead of time, contact Lance at 208-392-8844

Directions to the Sale Site

5661 Foraker Rd. | Shidler, OK 74652

12 miles west of Pawhuska, OK on HWY 60 (or 7 miles east of the intersection of HWY 60 and HWY 18), then 5 miles north on Foraker Rd.

Commercial Females & Pairs

20 commercial first calf heifer pairs with babies born in August or September. These are our home raised commercial heifers and the babies are out of our Registered bulls. See the web site for a video when it gets made.

40 heifers AI bred to Tower Hills Legacy 718 and then pasture exposed to other good calving ease Optimizers. They should start calving April 8 th and be done by mid May. We will post a video of them at TowerHillsRanch.com before October 6.

Registered Females

6 Angus Donor prospects, our top 9 Angus Yearling heifers, and our top 10 Optimizer yearling heifers. See pages 10-13 for details.

Lots of maternal power in this gentle bull's pedigree. He is an above average performer off the cow and on grass. He is probably safe to use on heifers, even though he had an 82 pound actual birth weight. He is a pet that wants his head scratched when he meets you at the gate. The tips of his ears froze off when he was born.

She is an own daughter of Tower Hills Lucky 701, our proven heifer bull who, for some unknown reason, has bad Calving Ease Direct EPD's with the Angus Association. We have used this very attractive, moderately framed bull on heifers for eight breeding seasons, have never had a difficult birth or a calf over 80 pounds out of him. This heifer had a 56 pound actual birth weight. She is good looking and a good grower.

This younger heifer had the highest weaning weight per day of age of all the 41 heifers in the calf crop. Another light birth weight, good grower from Tower Hills Lucky 701.

Optimizer Heifers

We sorted off our top ten Optimizer heifers from the fall, 2021 calf crop to offer in this sale. Optimizers tend to calve easier, grow better and move around more than 100% Angus females. We think they make the best Angus cross because of the maternal strengths and do-ability that the Salers breed adds without giving up carcass merit and adding hybrid vigor. See the videos at TowerHillsRanch.com

This is an extraordinary "spread" female- low birth weight/high growth out of Drummond 907, our favorite Optimizer herdsire who, unfortunately, broke his leg in a gate before we could even get his picture taken. We did collect him, and have used him AI extensively. This heifer is 3/8 Salers, had a 61 pound birth weight, and is one of the biggest heifers in the calf crop.

The Best Hybrid Cross Optimized

The Angus Breed - famous to the world for efficiently producing the best food you can eat. That is why Certified Angus Beef gets a premium price from the packers. That is why black cattle bring the highest prices at every sale barn.

The Salers Breed - hardy beef and dairy breed developed in the mountains of France. They range over the entire pasture every day. They calve easier due to wider pelvises and tapered skulls. They have outstanding maternal instincts and are superior milkers. They are more fertile and live longer than Angus.

We have found that crossing Angus to Salers gives us a more efficient and productive cow herd.

Range Ready Cattle

Tower Hills Ranch is a grass ranch, not a farm. We have raised yearlings on grass out of our commercial cows bred to our registered bulls. We feed our registered cows the same as our commercial cows and select our genetics based on real world performance.

A Win, Win with this Hybrid breed!

Cowmen like having more live calves that grow and sell better. Stocker operators pay more because they grow and sell better. Feedlots pay more because of better performance on feed and higher dollars from the formula. Packers like them because they make great food, and everybody likes great food!

Great bulls and cows at reasonable prices.

Go to TowerHillsRanch.com on September 6, 2022 to see videos, pedigrees, performance data, and prices. Call or come to the ranch between September 6, 2022 and October 6, 2022 to make your picks in person and get your dibs in on your favorites. Be in touch by phone on October 6, 2022 in case there is an auction. We kickoff our Private Treaty Sale October 6, 2022. \$100 off asking prices on every bull that sells that day.
