# TOWER HILLS RANCH

*Welcome to Tower Hills Ranch Fall 2023 private treaty kickoff sale!*

What a great time to be in the cattle business. Our Tower Hills sired commercial steers gained 330 pounds on summer grass, and they topped the market on sale day. The feedlots pay extra because they perform both in the yard and on the rail. The pinch of Salers blood shows up in higher gain and yield without a negative effect on carcass merit. These genetics are making money from the pasture to the plate!

As always, we list every bull in our calf crop in the catalog and on the performance table. We do keep as many as we need for our commercial and registered herd only after we offer all of them to our customers at sale kick-off. We fed this crop of bulls a corn ration for 105 days at 2% of their body weight before measuring for carcass traits as yearlings. Other than that they have lived on grass and 8 pounds of 14% cubes. These bulls are not pampered and will hold up when you turn them out. They are also used to people and gentle. In the back of the catalog we have posted an article by Dr. Mark Johnson from Oklahoma State University about "What is a good bull worth?" He says a bull is worth 5 calves. We just sold our steers for \$2,370 each, so the bulls should be worth around \$12,000, yet we are asking just \$2,300 to \$4,200. Great bulls at great prices!

This catalog has the minimum bid prices on all the cattle. If you are interested in a particular animal or group of females at our minimum bid price you should let us know, **with your contact information**, before the kickoff. No animals will be sold before kickoff, but at kickoff it is strictly first come, first served. Where multiple customers have expressed interest in the same animal we will call you (if you aren't here) and have a quiet auction between those customers on the list. We are taking \$100 off our minimum bid price for all bulls sold on October 19.

Joe Bush, owner (918) 629-2554

# 2023 Private Treaty Kickoff Sale

Thursday | Oct. 19, 2023 | 10:00 am  
Tower Hills Ranch | Shidler, Oklahoma

## Breeding Guarantee

All sale bulls passed a Breeding Soundness Exam. We guarantee them to be fertile for the first breeding season (3 months following turnout). If a bull fails to settle your cows we will provide either a satisfactory replacement or a credit on a future Tower Hills Ranch animal equal to purchase price less salvage value. Tower Hills Ranch will not replace an animal due to death or injury. We guarantee fertility only. We do ask you to contact us as soon as you discover a failure to breed and within the first breeding season.

## Females

This year we are offering our best 8 registered weaned heifers, along with a group of our 15 best open commercial heifers, 25 commercial heifers bred for spring, and 15 commercial first calf heifer pairs. They can be viewed online at [TowerHillsRanch.com](http://TowerHillsRanch.com).

## Key

Bulls highlighted in yellow (and wearing yellow ear tags) are registered Optimizers registered with the Salers Association. The fraction of Salers blood is shown next to their birth date under their name on each animal. They are all mostly Angus with the fraction of Salers ranging from 1/4 to 3/4. The bulls highlighted in blue (and wearing blue ear tags) are 100% Angus and registered with the Angus Association.

## Be our Guest

Come join us at the ranch on October 19, 2023! Bulls will start selling at 10:30 a.m. on a first come first serve basis.

Bull prices will start at \$2,300.00.

All cattle can be previewed ahead of time, contact Lance at 208-392-8844

## Directions to the Sale Site

5661 Foraker Rd. | Shidler, OK 74652

12 miles west of Pawhuska, OK on HWY 60 (or 7 miles east of the intersection of HWY 60 and HWY 18), then 5 miles north on Foraker Rd.

A 60 pound actual birth weight and a top notch maternal pedigree from the Salers side, this is a moderate framed bull with calving ease, and great carcass merit. Use him to breed even small heifers, and keep his daughters to make great moderate framed easy keeping cows. He is wide and has a powerful hindquarter, too.

This is a great bull by every measurement we took. He had a moderate birth weight, was the top gainer on corn, turned in the best carcass data in his class, and is among the heaviest bulls here. He is 5/8 Salers, so his calves will have significant hybrid vigor. Recommended for customers selling beef.

## THR DRUMMOND 20K

## What's a Good Bull Worth?

Mark Z. Johnson, Oklahoma State University Extension Beef Cattle Breeding Specialist

The question that has been asked forever, or at least as long as we have been breeding cattle with a notion of trying to make the next generation better. It is a classic and timeless question. It is an important question. At this time of year, when many bulls are being marketed and we are planning ahead for spring breeding season, it is the question that is asked a lot! Perhaps it is all the above because it is so challenging to answer.

### The Answer

I remember first hearing the answer nearly 40 years ago as a student at OSU. "A good bull is worth the value of five calves he sires". I've heard that answer again many times over the years. I believe it is a good answer and a good rule of thumb to follow, the problem is it doesn't exactly narrow down the range. If we do a little math, this answer may in fact lead to more questions. Such as .....

### When are we marketing our Calves? What is their Value?

According to the most recent USDA Cattle Market Report:

500 lb. weaned steer calves (Large, 1) are worth about \$2.00/lb. for a value of \$1,000 per head. Therefore, if my future marketing plan is to sell weaned steers,  $\$1,000 \times 5 = \$5,000$  is the answer.

875 lb. yearling steers (Large, 1) are worth about \$1.57/lb. for a value of \$1,374 per head. Therefore, if my future marketing plan is to sell yearling steers,  $\$1,374 \times 5 = \$6,869$  is the answer.

920 lb. beef carcasses are worth \$2.26/lb. for a value of \$2,079 each. Therefore, if my future marketing plan is to retain ownership through finishing and sell fed cattle on a carcass value basis,  $\$2,079 \times 5 = \$10,395$  is the answer.

So, in the current market, a good bull is worth somewhere between \$5,000 - \$10,395 to a commercial cattle operation. Where exactly in that range depends on your marketing plan and the market conditions at that time. Not an exact number because there are "many layers to this onion". One important point illustrated here is that the longer you will own the offspring before marketing, the greater the amount you can afford to pay. Retained ownership gives you more time and opportunity to capture the value of your investment in genetics. And we haven't even considered the value added to replacement females if we select daughters as our next generation of cows. More on that next week when we discuss looking at your unique operation to shed more light on this question and determine where to apply selection pressure. Until then, keep the following chart in mind as another way to evaluate ownership cost of bulls on a per cow or annual basis.

| Bull Purchase Price |         |         |         |          |
|---------------------|---------|---------|---------|----------|
|                     | \$3,000 | \$6,000 | \$9,000 | \$12,000 |
| Cost/cow bred*      | \$19.10 | \$38.21 | \$57.32 | \$76.43  |

\* assuming 157 cows bred between ages 1 to 6 (over 6 breeding seasons)

| Bull Purchase Price |       |         |         |         |
|---------------------|-------|---------|---------|---------|
| Cost/year*          | \$500 | \$1,000 | \$1,500 | \$2,000 |

\* assuming 6 years of service

Plenty of volume and style in this Real Rito daughter. The Blanche cow family originated with Mark Johnson and has been a favorite through multiple generations.

Her sire was the performance standout in his 400 animal class at Midland Bull Test, and her Dam combines my favorite Schaff Angus Valley genetics.

This heifer's dam has brought us many great calves, and her sire was Drummond 907's sire. She is the best we have.

# How Commercial Females Sell

We have 3 different Asking Prices on each group of commercial females. The You Pick Them price means you get to sort of whichever females in the group you want to buy at that price. It can be any number. The Gate Sort price means the females are randomly sorted through a gate and you are buying your number of females randomly sorted at that price. The Take Them All price is for all of the females in the group.

We begin selling the females at these asking prices on Sale Day after the bulls. If you are interested in any number of females at the asking prices you should let us know before the Sale, with your contact information. In the event multiple customers are interested in the same group of females we will call them and have a quiet auction between those customers.

Take Them All customers have top priority. If one customer offers to take the group at our asking price, then nobody gets to pick or gate sort. If two or more customers are interested in Taking Them All, we will call them and have a quiet auction between those customers.

You Pick Them customers have second priority. If there are no Take Them All customers for a group by Sale time, any customer gets choose as many as they want at the You Pick Them price. If there are multiple You Pick Them Customers the one picking the most gets to pick first. We will readjust the Asking Prices if any group has been picked.

If there are no Take Them All or You Pick Them customers by Sale time we will randomly sort any number of cattle at the Gate Sort price. If there are You Pick Them or Gate Sort customers and another customer Takes Them all, we will pass the information to the Take Them All buyer.

## Price List for Commercial Females

### Group of 15 Open
