TOWER HILLS RANCH

Welcome to Tower Hills Ranch Spring 2026 private treaty kickoff!

Our bull sale will kick off on May 7th and continue until all bulls are sold.

Bulls purchased at the minimum bid on May 7th will receive a \$250 discount.

The beef cattle business hasn't been this good since the Packers and Stockyards Act was passed and enforced in the 1920's! Feed is down and cattle prices continue to outpace inflation. Oklahoma State University is reporting good bulls in 2026 are worth \$12,000 to \$17,000 (see inside back cover), while our source suppliers are averaging \$16,000 to \$20,000 over hundreds of bulls sold with many selling over \$100,000! We are offering top genetics in great working condition at very reasonable prices.

This is a great set of full bodied black hided cattle whose calves top the market at the sale barn, at the feedlot and on the rail at the packing houses. We have been crossing the best Angus genetics with the best of the Salers breed to make these cattle excel in growth and reproductive performance. We are not only a registered operation, but also a commercial cow and yearling steer operation. We are a grass ranch, and select genetics based on performance on grass. We develop the bulls in grass traps and measure their relative performance on grass. We did feed them corn, limited to 2% of their body weight, for 106 days prior to ultrasounding them for carcass traits. The females have never tasted corn. The bulls have never been "fat" and are healthy and in good shape to service your cows without falling apart.

If you are interested in a particular animal at our minimum bid price you should let us know, **with your contact information**, before the sale kicks off. No animals will be sold before kickoff, but at kickoff it is strictly first come, first served. Where multiple customers have expressed an interest in the same animal we will call you if you aren't here and have a private auction between those customers on the list.

Call Lance or Joe to come look through the cattle between now and May 7. We start selling the bulls at 10:30 am on May 7, followed by the females. Any that don't sell on the first day are still for sale at the published minimum bid price until sold. We are taking **\$250 off** the minimum bid prices on every bull that sells on May 7th!

2026 Spring Private Treaty Sale Kickoff

Thursday | May 7, 2026 | 10:30a.m.
Tower Hills Ranch | Shidler, Oklahoma

Breeding Guarantee

All sale bulls passed a Breeding Soundness Exam. We guarantee them to be fertile for the first breeding season (3 months following turnout). If a bull fails to settle your cows we will provide either a satisfactory replacement or a credit on a future Tower Hills Ranch animal equal to purchase price less salvage value. Tower Hills Ranch will not replace an animal due to death or injury. We guarantee fertility only. We do ask you to contact us as soon as you discover a failure to breed and within the first breeding season.

Key

Bulls highlighted in yellow (and wearing yellow ear tags) are registered Optimizers registered with the Salers Association. The fraction of Salers blood is shown next to their birth date under their name on each animal. They are all mostly Angus with the fraction of Salers blood ranging from $\frac{1}{4}$ to $\frac{5}{8}$ ths. The bulls highlighted in blue (and wearing blue ear tags) are 100% Angus and registered with the Angus Association.

Be our Guest

Come join us at the ranch on May 7, 2026! Bulls will start selling at 10:30 a.m. on a first come first serve basis.

The full bull price list is available on the inside back cover.

All cattle can be previewed ahead of time, contact Lance at 208-392-8844

How Commercial Females Sell

We have 3 different Asking Prices on this group of commercial females. The You Pick Them price means you get to sort off whichever females in the group you want to buy at that price. It can be any number. The Gate Sort price means the females are randomly sorted through a gate and you are buying your number of females randomly sorted at that price. The Take Them All price is for all of the females in the group.

We begin selling the females at these asking prices on Sale Day after the bulls. If you are interested in any number of females at the asking prices you should let us know **before** the Sale, **with your contact information**. In the event multiple customers are interested in the same group of females we will call them and have a quiet auction between those customers.

Take Them All customers have top priority. If one customer offers to take the group at our asking price, then nobody gets to pick or gate sort. If two or more customers are interested in Taking Them All, we will call them and have a quiet auction between those customers.

You Pick Them customers have second priority. If there are no Take Them All customers for a group by Sale time, any customer gets choose as many as they want at the You Pick Them price. If there are multiple You Pick Them Customers the one picking the most gets to pick first. We will readjust the Asking Prices if any group has been picked.

If there are no Take Them All or You Pick Them customers by Sale time we will randomly sort any number of cattle at the Gate Sort price. If there are You Pick Them or Gate Sort customers and another customer Takes Them all, we will pass the information to the Take Them All buyer. See TowerHillsRanch.com for updates.

What is a Good Bull Worth in 2026?

Mark Z. Johnson, Oklahoma State University Extension Beef Cattle Breeding Specialist

With the onset of The Cattlemen's Congress currently taking place in Oklahoma City, the spring 2026 bull buying season has officially started. The full schedule of sales during the Cattlemen's Congress. Bull buying season will continue into the spring months, in Oklahoma and across the nation with progressive seedstock operations offering yearling bulls. Accordingly, it's time to revisit the age old question. **What is a Good Bull Worth in 2026?**

THE ANSWER

As a student at Oklahoma State University in the mid-1980s, I was taught "A good bull is worth the value of five calves he sires." It is a good answer and a good rule of thumb to follow, the problem is it doesn't exactly narrow down the range. As always, we need define "a good bull," check current market reports, answer some questions about how we intend to market future calf crops, and do some "cowboy math" to arrive at a more precise answer.

WHAT IS CONSIDERED A "GOOD BULL"?

For this discussion, qualifications to meet "Good Bull" status are:

- A bull that sells with a registration paper which includes pedigree information and a complete set of genetic values (including EPDs and Bio-economic indices) to be considered in the selection process.
- A bull that has passed a Breeding Soundness Exam (BSE) and sells with a breeding soundness warranty (terms will vary).
- A bull that will add value to calves sired because he fits your breeding objectives, production system and marketing plans.

WHEN ARE WE MARKETING OUR CALVES? WHAT IS THEIR VALUE?

Using the end of year market prices for 2025 from Dr. Derrell Peel's article in the December 29th, 2025 issue of the Cow-Calf Corner newsletter:

500 lb. weaned steer calves were worth about \$4.80/lb. for a value of approximately \$2,400 per head. Therefore, if my future marketing plan is to sell weaned steers, $\$2,400 \times 5 = \$12,000$ is the answer.

800 lb. yearling steers were worth about \$3.50/lb. for a value of \$2,800 per head. Therefore, if my future marketing plan is to sell yearling steers, $\$2,800 \times 5 = \$14,000$ is the answer.

1,500 lb. finished beef steers were worth \$2.29/lb. live for a value of \$3,435 each. Therefore, if my future marketing plan is to retain ownership through finishing and sell fed cattle on a live weight basis, $\$3,435 \times 5 = \$17,175$ is the answer.

So, in the current market, a good bull is worth somewhere between \$12,000 - \$17,175 to a commercial cow-calf operation. Where exactly in that range depends on your marketing plan and the market conditions at that time. Not an exact number because there are many variables in play. One key point illustrated here is that the longer you own the offspring before marketing, the greater the value of the bull to your operation. Retained ownership gives you more time and opportunity to capture the value of your investment in genetics. **It is noteworthy that we haven't considered the value added to replacement females a bull will sire. Bulls used to sire the next generation of cows have an *even greater* long-term economic impact on the profit potential of your operation and should be valued accordingly.**

I encourage cow-calf operations to consider their breeding goals, production system and marketing plan. Doing so should dictate where to apply selection pressure. Genetic values pay when you purchase bulls capable of improving genetic potential for the specific traits that will translate to added value at your intended marketing endpoint.

This table shows the relative performance information on each bull. They are in order by age, with the oldest first and the youngest last. A 3 month spread. All the weights are unadjusted actual weights on the dates above each column. The performance measures in red highlight the best performers in each category. These bulls were fed a corn ration limited to 2% of their body weight for 106 days prior to ultrasounding. They were never fat, but the ribeye area and intramuscular fat (IMF) measures indicate which bull's steaks would be the biggest and the juiciest.

The Wean WDA (Weight per Day of Age) ratio column shows which bulls grew the fastest while they were nursing. It is a measure of relative maternal power.

The Grass Gain column shows how many pounds they gained in the 87 days between weaning and starting to eat corn.

Scrotal circumference is shown (in centimeters) because university studies have shown a correlation between scrotal circumference and his daughters' fertility rates.

Contact Joe Bush, owner (918) 629-2554 or Lance Campbell, manager (208) 392-8844 to discuss which cattle you would like to buy.

If you are interested in a particular bull at our minimum bid price you should let us know, with your contact information, before the kickoff. No animals will be sold before kickoff, but at kickoff it is strictly first come, first served. Where multiple customers have expressed interest in the same animal we will call you (if you aren't here) and have a quiet auction between those customers on the list. We are taking **\$250 off the minimum bid** price for every bull that sells on May 7th!
